

## PRESIDENT'S TELEGRAM READ INTO RECORD

**WAS ADDRESSED  
BY COOLIDGE TO  
EDW. B. McLEAN**

TELEGRAM FROM PRESIDENT TO  
McLEAN CLIMAXED SERIES  
OF SENSATIONS

BERNARD M. BARUCH, NEW  
YORK FINANCIER, SENT Mc-  
LEAN "REGARDS"

**Congress Today  
By United Press**

Senate: Oil committee con-  
tinues inquiry.  
Diploma mill investigation re-  
sumed.  
Finance committee meets on  
tax bill.  
House: Muscle Shoals.  
Soldier bonus before ways and  
means committee.  
Northern Pacific line grants be-  
fore public lands committee.

Washington, March 6.—A tel-  
egram signed "Calvin Coolidge"  
and addressed to Edward B. Mc-  
Lean, publisher of the Washing-  
ton Post, was read into the oil  
scandal records as the foremost  
sensation in the committee's de-  
velopments today.

The telegram was sent from Wash-  
ington to Palm Beach, while McLean  
was there with former Secretary of  
the Interior Fall as his guest.

The telegram read:  
"January 12."  
"E. B. McLean, Palm Beach, Flori-  
da."

"Prescott is away, advised Slem-  
p with whom he shall confer. Calvin  
Coolidge."

C. Bascom Slem, secretary to the  
president, was in Florida at that  
time. He has already testified that  
he attended several dinner parties  
with McLean.

A second message from Mr. Cool-  
idge to McLean was as follows:

"The White House, February 12th.  
"Thank you for your message.  
You have always been most consid-  
erate. Mrs. Coolidge joins me in  
kindest regards to you and Mrs. Mc-  
Lean."

Signed "Calvin Coolidge."

The telegram from the president  
to McLean climaxed a series of  
smashing sensations which had just  
preceded reading of the Coolidge  
message. These included reading of  
telegrams which disclosed:

That H. E. McKenna, doorkeeper  
at the White House office to C. Bas-  
com Slem, the president's secretary,  
notified McLean in Palm Beach of  
Slem's departure for Florida on the  
day Slem left.

That Bernard M. Baruch, New  
York financier and a figure in the  
wartime administration, was in com-  
munication with McLean at Palm  
Beach and sent him "affectionate re-  
gards."

That Senator Smoot, a member of  
the senate committee, was in direct  
communication with Albert B. Fall,  
chief figure of the scandal.

That William J. Burns, head of  
the secret service of the department  
of justice notified McLean of an in-  
vestigation of his connection with  
the department as a "dollar a year  
man."

That Fall and Senator Lenroot,  
chairman of the senate investigating  
committee, exchanged messages re-  
garding summoning of witnesses in  
the inquiry.

The significance of the Coolidge  
telegram to McLean and the identity  
of the "Prescott" named in the tel-  
egram were made apparent after the  
message was read.

**COOLIDGE EXPLAINS  
THE 2 TELEGRAMS**

Washington, March 6.—The tel-  
egrams from President Coolidge to  
the White House to E. B. McLean, pub-  
lisher of the Washington Post at  
Palm Beach, were read into the rec-  
ords by the senate oil investigating  
committee today.

A terse statement from the White  
House explained that one of them re-  
lated to a conference which the pres-  
ident wished to have with Samuel J.  
Prescott, republican city chairman in

## County Convention Is Solidly For Pres. Coolidge

**3 ST. PAUL GIRLS  
IN BOYS' CLOTHES  
INVOLVED IN THEFT**

(By United Press)

Faribault, Minn., March 6.—  
Three St. Paul girls, dressed in  
boys' clothing, and three St. Paul  
boys were held by the sheriff of  
Rice county today for Twin City  
authorities.

They confessed stealing a car in  
Minneapolis yesterday afternoon,  
and said they were on their way  
to Des Moines.

The six gave their names as  
follows: Albert Barber; Arthur  
Teuchel, 18; Russel Casey, 17;  
Madge Carter, 17; Agnes Cunn-  
ingham, 15, and Marie Conway, 16.

Barber, according to the sheriff,  
took all the blame for the theft of  
the car and robbery at Rosemont  
and Dundas. He said he was out  
of work and was scolded by his  
mother. He bought moonshine in  
St. Paul, he said, and rounded up  
the party for the trip south.

The sheriff confirmed the theft  
of drugs and toilet sundries from  
Rosemont. The youths also ob-  
tained money from a druggist.  
The six stopped at Dundas and  
obtained cartridges for a gun car-  
ried by one of them.

Between Northfield and Faribault  
the car ran out of gasoline,  
and the party walked to North-  
field, sleeping in the depot. They  
started on and the sheriff, notified  
of the party's purchase of car-  
tridges at Dundas, went after  
them.

Washington, on District of Columbia  
appointments.

A second explained the other tel-  
egram was purely personal, having to  
do with his Lincoln day address.

Reading of these telegrams follow-  
ed a statement by Senator Heflin  
in the senate yesterday that he thought  
the "principal" referred to in other  
McLean telegrams was President  
Coolidge.

Committee members said the sig-  
nificance to them of the Coolidge  
telegrams lay merely in the evidence  
that they gave that Mr. Coolidge and  
McLean were apparently on fairly  
intimate terms.

While the committee was resum-  
ing its session, President Coolidge's  
special counsel began the first court  
action aimed to retain the leased oil  
lands, and announced criminal grand  
jury will be empaneled April 1st to  
consider any prosecution which may  
be found necessary as a result of the  
oil probe.

**COOLIDGE ISSUES  
STATEMENT THROUGH SLEMP**

Washington, March 6.—President  
Coolidge today, immediately upon  
being advised of the publication by  
the senate investigating committee  
of his telegram to E. B. McLean, is-  
sued the following statement  
through his secretary, C. Bascom  
Slem:

The telegram related to the dis-  
trict commissionership. Samuel J.  
Prescott is the republican city chair-  
man and the president desired to  
confer with him regarding district  
matters.

With equal dispatch, President  
Coolidge upon being informed of the  
second telegram, issued the second  
statement:

The telegram sent to Mr. McLean  
on February 12th, the statement  
read, "was in regard to a message  
from McLean congratulating the  
president on his Lincoln birthday ad-  
dress in New York. The telegrams  
exchanged were similar to others re-  
ceived and sent out in that same con-  
nection. It amounts simply to an  
exchange of amenities."

After an examination of White  
House files, it was discovered that  
the second message Mr. Coolidge sent  
McLean under date of February 12th,  
did not relate to the president's Lin-  
coln birthday address, and C. Bas-  
com Slem, the president's secretary,  
made this statement:

"The telegram sent to Mr. McLean  
under date of February 12th, was in  
answer to a telegram received from  
McLean congratulating the president  
on his statement with respect to the  
senate resolution calling for the

**COUNTY MEETS  
GIVE IMPETUS  
TO THE CAMPAIGN**

PRESIDENT COOLIDGE IS ENDORS-  
ED BY MAJORITY OF COUN-  
TY CONVENTIONS

BELIEVED VICTORY FOR CONSER-  
VATIVE ELEMENT OF THE  
PARTY

(By United Press)

St. Paul, March 6.—President  
Coolidge's campaign for the re-  
publican nomination in the  
Cleveland convention of the  
party was given added impetus  
today, as a result of the county  
conventions in Minnesota.

Just one day following endorse-  
ment of Mr. Coolidge by the state  
convention of the republicans in Iowa,  
the president was endorsed by a ma-  
jority of the county conventions in  
this state.

The action of the county con-  
ventions practically assured Mr. Coolidge  
of the Minnesota delegation in the na-  
tional convention which goes into ses-  
sion in June.

The case on which Mr. Coolidge won  
throughout the state was attributed  
in some quarters as victory for the  
conservative element of the party.  
Some political followers, however,  
said the action was an indication that  
a third party in the northwest was  
certain and that the radical element  
of the republican party took no part  
in the county conventions.

With a few of the state's 87 coun-  
ties still unheard from, no opponent  
of Mr. Coolidge has yet been reported.  
The state republican convention  
will be held here on Saturday.

At that time it is believed support-  
ers of Hiram Johnson may speak from  
the floor and attempt to arouse sen-  
timent for the Californian, but even  
the closest advisors of Senator John-  
son in this state are saying the "con-  
vention is packed for Coolidge." They  
are free to admit that "they haven't  
a chance at the convention."

Robert M. La Follette has hardly  
been mentioned in connection with  
the republican caucuses and conven-  
tions for it has been understood he  
would be a third party candidate.  
The convention called for May 30th in  
St. Paul by the farmer-labor and non-  
partisan league leaders plans to put  
over Senator La Follette as a third  
party candidate for president. Since  
then, however, Senator La Follette  
has flatly declined to become a candi-  
date at least so far as the North Da-  
kota primaries are concerned.

The county conventions in Minne-  
sota, according to some, are not a real  
indication of the standing of Calvin  
Coolidge. The legislature denounced  
the political conventions of their ef-  
fectiveness, some politicians maintain,  
and as a result there is little inter-  
est in the caucus.

resignation of Edwin Denby, sec-  
retary of the navy.

"Owing to the date of the tel-  
gram, the president at first thought  
it related to the president's Lincoln  
day address in New York.

"A number of congratulatory mes-  
sages were received in connection  
with both the statement on the Rob-  
inson resolution and the New York  
speech.

"An examination of the White  
House files after issuance of the or-  
iginal statement disclosed, however,  
that the McLean message related to  
the Denby matter."

**CANNOT GIVE  
INCOME TAX RATES**

Washington, March 6.—President  
Coolidge today notified the senate he  
could not submit to the oil investi-  
gating committee the income tax  
rates of Harry Sinclair, E. L. Doheny  
and Albert B. Fall as requested by  
the senate in the McKellar resolu-  
tion.

Mr. Coolidge said he had been ad-  
vised by acting Attorney General  
Seymour that giving of information  
(Continued on Page 6)

**TWO FISHER  
BROTHERS ADMIT  
MURDERING MAN**

(By United Press)

St. Paul, March 6.—Frank and  
Joe Fisher today made complete  
confession of the murder of Fred  
Lundberg in 1922, according to  
County Attorney H. H. Peterson.  
The statement of the brothers  
implicated another man, according  
to Peterson.

Since the slaying of Lundberg,  
Soo Line special agent here, two  
years ago, police of the northwest  
have sought a solution of the kill-  
ing which resulted from box car  
robberies.

Lundberg was found dead after  
a gun battle in the Soo yards here.  
Ed Kowitz is said to be the third  
man involved.

**WOMEN VOTERS TO  
MEET IN BUFFALO  
TO GET OUT VOTE**

(By United Press)

Buffalo, N. Y., March 6.—The board  
of directors of the National League of  
Women Voters has issued a formal  
call for its fifth annual convention to  
be held here April 24 to 29, inclusive.

The convention, which will be pre-  
sided over by Mrs. Maude Wood Park,  
national president of the league, will  
mark the opening of an intensive na-  
tion-wide campaign to "get out the  
vote" for the 1924 election.

"In the election of 1920, for the  
first time in the history of our nation,  
women throughout the United States  
were entitled to vote," the call for  
the convention reads.

"Most of them were strangers in the  
great domain of public affairs. They  
had much to learn. Year by year since  
then the league has carried on with  
increasing success the work of edu-  
cating women for the primary duty of  
good citizenship—the casting of an  
informed and conscientious vote."

"At Buffalo, the league will gather  
with another national election ahead,  
an election in which the work of our  
four years will be tested."

**FORBES GIVES  
\$10,000 BOND**

**FOR APPEARANCE BEFORE FED-  
ERAL COURT IN CHICAGO  
MARCH 17**

(By United Press)  
Washington, March 6.—Charles R.  
Forbes, former veterans' bureau head  
today gave \$10,000 bond for his ap-  
pearance before the federal court in  
Chicago on March 17.

Forbes appeared before United  
States Commissioner George H. Mc-  
Donald here, and pleaded not guilty  
to two charges of conspiracy to de-  
fraud the United States government,  
and one charge of accepting bribe.

Forbes was indicted by a Chicago  
grand jury on charges of seeking  
bribes from contracting interests  
headed by J. W. Thompson, St. Louis,  
and of having entered into agreement  
with a group of contractors to allot  
to them all veterans' bureau con-  
struction contracts.

**TRAGEDY MARKS  
CLOSE OF PARTY**

**CHORUS GIRL DEAD AND BALL  
PLAYER CHARGED WITH  
MANSLAUGHTER**

(By United Press)

Milwaukee, March 6.—Margie  
Thomas, 23, chorus girl said to live  
at Sheboygan, Wis., is dead and Wm.  
Hoppe, baseball player, is charged  
with manslaughter, following an au-  
tomobile accident here early today.

According to Sheriff Westfall, the  
girl was killed and Hoppe received  
serious injuries when the roadster in  
which they were riding crashed into a  
concrete light pole.

The tragedy is said to have ended  
an all night party and joy ride, ac-  
cording to officials.

**REPUBLICANS  
ASSEMBLED AT  
COURT HOUSE**

ALSO EXPRESSED APPROVAL OF  
WORK OF CONGRESSMAN  
KNUTSON

DELEGATES ELECTED TO THE  
STATE AND DISTRICT CON-  
VENTIONS

Crow Wing county republicans  
in convention assembled yester-  
day afternoon declared solidly  
for President Coolidge and so  
instructed their delegates to  
vote. The convention assembled  
in the farmers' room of the  
court house. Blessed with fair weath-  
er, it enabled a large number of  
delegates from the range and rural  
districts to attend, the convention  
thus giving fair expression to senti-  
ment of republicans from all sections.

The meeting was called to order  
by County Chairman D. D. Schrader  
who was elected chairman of the con-  
vention.

Credential and resolutions commit-  
tees were appointed. Mr. Schrader  
was re-elected county chairman and  
Mrs. J. A. Thabes was re-elected sec-  
retary. The county chairman was  
authorized to appoint his own coun-  
ty committee. Elected by a rising  
vote, Mr. Schrader polled 46 out of  
52 votes.

**Resolutions Adopted**

The resolutions committee, D. B.  
McAlpine, Ironton, chairman; and  
Mrs. Maud Fearing, Crosby; J. A.  
Wilson, Dr. C. A. Nelson, Brainerd;  
C. W. Potts, Deerwood, offered these  
resolutions, which were adopted  
without a dissenting voice:

"That we hereby reaffirm the prin-  
ciples and policies of the republican  
party and representative govern-  
ment."

"That we regret the sudden death  
of that worthy and noble character,  
Warren G. Harding."

"That we believe our party meets  
the aspirations of the American peo-  
ple and presents the best methods of  
government of all classes."

"That we have in President Calvin  
Coolidge the highest type of true  
American citizen, honest, sincere and  
able; that we rejoice in his leader-  
ship, and pledge ourselves to support  
his candidacy for the republican  
nomination for president of the Uni-  
ted States, feeling confident that he  
will deal wisely with the trying con-  
ditions of the times in national and  
world affairs, and that his adminis-  
tration of that high office has received  
and will continue to meet with the  
approval of the vast majority of  
his fellow citizens."

"That the delegates elected here  
today to represent this district at  
the national convention to be held  
in Cleveland on June 10, 1924, be  
instructed to cast their vote for  
President Coolidge until he is nomi-  
nated President of the United States  
by said convention."

"That we approve of the position  
taken in important national legisla-  
tion by Hon. Harold Knutson, mem-  
ber of congress, and desire to ex-  
press our confidence in his integrity  
and fair conduct in the fulfillment of  
his duties."

"That we recommend a weeding  
out of all public officials who are  
proven to be corrupt, dishonest, or  
whose official actions are influenced  
by motives of personal gain."

**Delegates Elected, State Convention**

These 12 delegates were elected to  
the state convention:  
Brainerd—W. H. Gemmell, Mrs. E.  
J. Quinn, R. R. Wise, Mrs. A. C.  
Weber, D. D. Schrader.

Ironton—D. B. McAlpine, P. J.  
Long.  
Deerwood—C. W. Potts.  
Crosby—Mrs. Harry Angst, Mrs.  
Maude Fearing, Edward P. Scallon.  
Pequot—Attorney Heath.

**Delegates Elected District Convention**

These 12 delegates were elected to

**MAGNUS JOHNSON  
FIGHTS FOR TWO  
FARM RELIEF BILLS**

(By United Press)

Washington, March 6.—Opposi-  
tion in the senate to the passing  
of either the Norbeck-Burness  
bill for farm relief or the Mc-  
Nary-Haugen bill is being fought  
by Magnus Johnson, who said on  
the floor of the senate:

"The manufacturer has his hand  
in the pocket of the wholesaler,  
the wholesaler has his hand in the  
pocket of the retailer, and the re-  
tailer has his hand in the pocket  
of the farmer, but where is the  
pocket into which Mr. Farmer can  
put his hand? There is none."

Asked by McLean of Connecticut  
why the farmer didn't go ahead  
and set his prices, Johnson said:

"I am willing to throw away all  
of the pending bills if the senate  
and house representatives will get  
behind a proposition to help or-  
ganize the farmers, so they can  
ascertain the cost of production.  
When they sent me down here  
they said maybe you can help us  
out. You can't make things any  
worse for us than the republicans  
have."

**GRAIN HURT BY  
FREAK WEATHER**

(By United Press)

Washington, March 6.—The freakish  
weather of the past several months  
has produced damaging results upon  
crops of winter grains, a survey just  
completed by the department of Ag-  
riculture revealed.

Repeated freezing and thawing  
throughout the heart of the grain belt  
has produced a condition there which  
the department characterizes as being  
"very low." Another cause was the  
lack of a snow cover to protect the  
seed grain sown in the autumn.

The weather was most unfavorable  
to wheat, the chief crop of the grain  
belt, the report said. Winter oats also  
have suffered from freezing and thaw-  
ing and in southern areas killed out  
so badly that in many places replant-  
ing is already in progress. Rye has  
suffered less and is reported gener-  
ally to be in fair condition.

Reports from New Jersey, Pennsylv-  
ania, Virginia, Georgia, South Caro-  
lina, Alabama, Tennessee, Indiana,  
West Virginia, North Carolina, Illi-  
nois and Oklahoma show great dam-  
age to wheat crops while in Maryland  
and Delaware the condition is termed  
as "fair." Wheat shows little dam-  
age from low temperatures in Ne-  
braska, Iowa, Kansas and Missouri  
and in Colorado the condition is "fair-  
ly good." In California the condi-  
tion is "improved."

Rye and barley crops were severely  
damaged in Kentucky and West Vir-  
ginia by cold weather. In Alabama,  
Georgia, Tennessee and the Carolinas  
these crops have been damaged in  
spots only. A "poor condition" pre-  
vails in Illinois and Indiana where a  
sufficient snow cover has been lack-  
ing.

Oats have been killed by freezing in  
the states of Tennessee, Alabama and  
Georgia and badly damaged in the  
Carolinas. Considerable damage is re-  
ported also in Texas, Mississippi and  
Louisiana.  
Bad roads are retarding movement  
of corn in the corn belt and there is  
a great demand for seed. For the  
same reason many sections of the  
south, where the ground is ready for  
sowing, the potato sowing is being  
delayed.

**6,000 CLAIMS STAKED**

North Bay, Ontario, March 6.—  
More than 6,000 mining claims in-  
volving 240,000 acres of land were  
staked by mining men and prospec-  
tors in northern Ontario in 1923.

the district convention to be held i  
Brainerd, Friday, March 7:

Brainerd—Dr. J. A. Thabes, D. E.  
Whitney, J. A. Wilson, Mrs. C. W.  
Rasch, Dr. C. A. Nelson, Mrs. W. C.  
Mannis, D. D. Schrader.

Pequot—R. J. Harte.  
Ironton—A. H. Proctor, D. B. Mc

Alpine.

Deerwood—John A. Oberg.  
Crosby—Mrs. C. Lewis.

**FAULTY RAILS  
THOUGHT WRECK  
CAUSE, 1 KILLED**

TOM PENDY, ENGINEER PACIFIC  
LIMITED, KILLED AT PORTS-  
MOUTH, IOWA

ENGINE OF CHICAGO, MILWAU-  
KEE RAILROAD TIPPED OVER,  
LEAVING TRACKS

(By United Press)

Portsmouth, Iowa, March 6.—  
Tom Pendy, engineer of the Pac-  
ific Limited of the Chicago, Mil-  
waukee & St. Paul railroad, was  
killed when the train was de-  
railed near here early today.

No other injuries to members of  
the crew or passengers was reported.  
The engine tipped over, leaving the  
tracks.

The limited left San Francisco on  
Monday, and was due in Chicago to-  
day. Wrecking crews state that the  
track will be cleared, and the train  
will arrive in Chicago at 7 o'clock  
tonight.

Faulty rails caused the wreck, offi-  
cials of the road believe. Coaches  
did not leave the rails, but passengers  
were thrown from their berths and  
slightly shaken up. The wreck will  
not delay other trains on the main  
line, officials said.

**ENGINEER'S HAND  
STILL ON THROTTLE**

Persia, Iowa, March 6.—Tom Pen-  
dy of Perry, Iowa, engineer of the  
Chicago, Milwaukee & St. Paul fast  
train number 20, was instantly killed  
and nearly a score suffered in-  
juries when the train left the tracks  
about three miles north of here to-  
day.

All the coaches except the observa-  
tion car were derailed. The bag-  
gageman and fireman were seriously  
injured. Most of the passengers re-  
ceived only slight cuts and bruises.  
Searchers found the body of the en-  
gineer still in the engine cab, with  
his hand on the throttle.

Passengers were removed and taken  
to Portsmouth, the first station  
north of here where they will remain  
until the tracks are cleared suffi-  
ciently to allow traffic to resume.

No cause for the accident has been  
determined.

**SAYS U. S. WOMEN  
NEGLECT THEIR FEET**

(By United Press)

Los Angeles, March 6.—American  
women are shamefully neglectful of  
their feet, according to Leon Bakst,  
famous Russian costume designer, a  
visitor here.

"Why is it that American women,  
perhaps the most beautiful in the  
world, persist in devoting all their  
care to their faces and entirely neg-  
lect cultivation of beautiful feet?"  
Bakst asked.

"In France one finds the feet of  
women their most precious posses-  
sion. Of other European countries  
this is also true, but here in America  
everything is given over to the face,  
while the feet are utterly neglected.  
I firmly believe that I am capable of  
reading a woman's character at first  
sight, even without seeing her face,  
if I am permitted to watch her feet  
in unguarded moments."

**BOAT FOUND, RELIC  
OF THE STONE AGE**

London, March 6.—A boat, which  
experts say is at least 5,000 years  
old, has been found, undamaged, in  
the mud at Elmley Ferry marshes.  
It lay seven feet under the surface.  
It is eleven feet long and 3 feet wide  
and has been hollowed out of the  
trunk of an oak tree. It was found  
not far from the banks of the Swale,  
a tidal river.

The boat is believed to be a relic  
of the Neolithic, or newer stone age,  
which ended in England from 1,500  
to 2,000 years before Christ, when  
bronze took the place of stone.

## PRESIDENT'S TELEGRAM READ INTO RECORD

**WAS ADDRESSED  
BY COOLIDGE TO  
EDW. B. McLEAN**

**TELEGRAM FROM PRESIDENT TO  
McLEAN CLIMAXED SERIES  
OF SENSATIONS**

**BERNARD M. BARUCH, NEW  
YORK FINANCIER, SENT Mc-  
LEAN "REGARDS"**

**Congress Today  
By United Press**

Senate: Oil committee continues inquiry.  
Diploma mill investigation resumed.  
Finance committee meets on tax bill.  
House: Muscle Shoals.  
Soldier bonus before ways and means committee.  
Northern Pacific line grants before public lands committee.

Washington, March 6.—A telegram signed "Calvin Coolidge" and addressed to Edward B. McLean, publisher of the Washington Post, was read into the oil scandal records as the foremost sensation in the committee's developments today.

The telegram was sent from Washington to Palm Beach, while McLean was there with former Secretary of the Interior Fall as his guest.

The telegram read:

"January 12."

"E. B. McLean, Palm Beach, Florida."

"Prescott is away, advised Sloop with whom he shall confer. Calvin Coolidge."

C. Bascom Sloop, secretary to the president, was in Florida at that time. He has already testified that he attended several dinner parties with McLean.

A second message from Mr. Coolidge to McLean was as follows:

"The White House, February 12th."

"Thank you for your message. You have always been most considerate. Mrs. Coolidge joins me in kindest regards to you and Mrs. McLean."

Signed "Calvin Coolidge."

The telegram from the president to McLean climaxed a series of smashing sensations which had just preceded reading of the Coolidge message. These included reading of telegrams which disclosed:

That H. E. McKenna, doorkeeper at the White House office to C. Bascom Sloop, the president's secretary, notified McLean in Palm Beach of Sloop's departure for Florida on the day Sloop left.

That Bernard M. Baruch, New York financier and a figure in the wartime administration, was in communication with McLean at Palm Beach and sent him "affectionate regards."

That Senator Smoot, a member of the senate committee, was in direct communication with Albert B. Fall, chief figure of the scandal.

That William J. Burns, head of the secret service of the department of justice notified McLean of an investigation of his connection with the department as a "dollar a year man."

That Fall and Senator Lenroot, chairman of the senate investigating committee, exchanged messages regarding summoning of witnesses in the inquiry.

The significance of the Coolidge telegram to McLean and the identity of the "Prescott" named in the telegram were made apparent after the message was read.

**COOLIDGE EXPLAINS  
THE 2 TELEGRAMS**

Washington, March 6.—The telegrams from President Coolidge at the White House to E. B. McLean, publisher of the Washington Post at Palm Beach, were read into the records by the senate oil investigating committee today.

A terse statement from the White House explained that one of them related to a conference which the president wished to have with Samuel J. Prescott, republican city chairman in

## County Convention Is Solidly For Pres. Coolidge

**3 ST. PAUL GIRLS  
IN BOYS' CLOTHES  
INVOLVED IN THEFT**

(By United Press)  
Faribault, Minn., March 6.—Three St. Paul girls, dressed in boys' clothing, and three St. Paul boys were held by the sheriff of Rice county today for Twin City authorities.

They confessed stealing a car in Minneapolis yesterday afternoon, and said they were on their way to Des Moines.

The six gave their names as follows: Albert Barber; Arthur Teuchel, 18; Russel Casey, 17; Madge Carter, 17; Agnes Cunningham, 15, and Marie Conway, 16.

Barber, according to the sheriff, took all the blame for the theft of the car and robbery at Rosemont and Dundas. He said he was out of work and was scolded by his mother. He bought moonshine in St. Paul, he said, and rounded up the party for the trip south.

The sheriff confirmed the theft of drugs and toilet sundries from Rosemont. The youths also obtained money from a druggist. The six stopped at Dundas and obtained cartridges for a gun carried by one of them.

Between Northfield and Faribault the car ran out of gasoline, and the party walked to Northfield, sleeping in the depot. They started on and the sheriff, notified of the party's purchase of cartridges at Dundas, went after them.

Washington, on District of Columbia appointments.

A second explained the other telegram was purely personal, having to do with his Lincoln day address.

Reading of these telegrams followed a statement by Senator Heflin in the senate yesterday that he thought the "principal" referred to in other McLean telegrams was President Coolidge.

Committee members said the significance to them of the Coolidge telegrams lay merely in the evidence that they gave that Mr. Coolidge and McLean were apparently on fairly intimate terms.

While the committee was resuming its session, President Coolidge's special counsel began the first court action aimed to retain the leased oil lands, and announced criminal grand jury will be empaneled April 1st to consider any prosecution which may be found necessary as a result of the oil probe.

**COOLIDGE ISSUES  
STATEMENT THROUGH SLOOP**

Washington, March 6.—President Coolidge today, immediately upon being advised of the publication by the senate investigating committee of his telegram to E. B. McLean, issued the following statement through his secretary, C. Bascom Sloop:

The telegram related to the district commissionership. Samuel J. Prescott is the republican city chairman and the president desired to confer with him regarding district matters.

With equal dispatch, President Coolidge upon being informed of the second telegram, issued the second statement:

The telegram sent to Mr. McLean on February 12th, the statement read, "was in regard to a message from McLean congratulating the president on his Lincoln birthday address in New York. The telegrams exchanged were similar to others received and sent out in that same connection. It amounts simply to an exchange of amenities."

After an examination of White House files, it was discovered that the second message Mr. Coolidge sent McLean under date of February 12th, did not relate to the president's Lincoln birthday address, and C. Bascom Sloop, the president's secretary, made this statement:

"The telegram sent to Mr. McLean under date of February 12th, was in answer to a telegram received from McLean congratulating the president on his statement with respect to the senate resolution calling for the

**COUNTY MEETS  
GIVE IMPETUS  
TO THE CAMPAIGN**

**PRESIDENT COOLIDGE IS ENDORSED BY MAJORITY OF COUNTY CONVENTIONS**

**BELIEVED VICTORY FOR CONSERVATIVE ELEMENT OF THE PARTY**

(By United Press)  
St. Paul, March 6.—President Coolidge's campaign for the republican nomination in the Cleveland convention of the party was given added impetus today, as a result of the county conventions in Minnesota.

Just one day following endorsement of Mr. Coolidge by the state convention of the republicans in Iowa, the president was endorsed by a majority of the county conventions in this state.

The action of the county conventions practically assured Mr. Coolidge of the Minnesota delegation in the national convention which goes into session in June.

The case on which Mr. Coolidge won throughout the state was attributed in some quarters as victory for the conservative element of the party. Some political followers, however, said the action was an indication that a third party in the northwest was certain and that the radical element of the republican party took no part in the county conventions.

With a few of the state's 87 counties still unheard from, no opponent of Mr. Coolidge has yet been reported. The state republican convention will be held here on Saturday.

At that time it is believed supporters of Hiram Johnson may speak from the floor and attempt to cause sentiment for the Californian, but even the closest advisors of Senator Johnson in this state are saying the "convention is packed for Coolidge." They are free to admit that "they haven't a chance at the convention."

Robert M. La Follette has hardly been mentioned in connection with the republican caucuses and conventions for it has been understood he would be a third party candidate. The convention called for May 30th in St. Paul by the farmer-labor and non-partisan league leaders plans to put over Senator La Follette as a third party candidate for president. Since then, however, Senator La Follette has flatly declined to become a candidate at least so far as the North Dakota primaries are concerned.

The county conventions in Minnesota, according to some, are not a real indication of the standing of Calvin Coolidge. The legislature denuded the political conventions of their effectiveness, some politicians maintain, and as a result there is little interest in the caucus.

resignation of Edwin Denby, secretary of the navy.

"Owing to the date of the telegram, the president at first thought it related to the president's Lincoln day address in New York."

"A number of congratulatory messages were received in connection with both the statement on the Robinson resolution and the New York speech."

"An examination of the White House files after issuance of the original statement disclosed, however, that the McLean message related to the Denby matter."

**CANNOT GIVE  
INCOME TAX RATES**

Washington, March 6.—President Coolidge today notified the senate he could not submit to the oil investigating committee the income tax rates of Harry Sinclair, E. L. Doheny and Albert B. Fall as requested by the senate in the McKellar resolution.

Mr. Coolidge said he had been advised by acting Attorney General Seymour that giving of information (Continued on Page 6)

**TWO FISHER  
BROTHERS ADMIT  
MURDERING MAN**

(By United Press)  
St. Paul, March 6.—Frank and Joe Fisher today made complete confession of the murder of Fred Lundberg in 1922, according to County Attorney H. H. Peterson.

The statement of the brothers implicated another man, according to Peterson.

Since the slaying of Lundberg, Soo Line special agent here, two years ago, police of the northwest have sought a solution of the killing which resulted from box car robberies.

Lundberg was found dead after a gun battle in the Soo yards here. Ed Kowitz is said to be the third man involved.

**WOMEN VOTERS TO  
MEET IN BUFFALO  
TO GET OUT VOTE**

(By United Press)  
Buffalo, N. Y., March 6.—The board of directors of the National League of Women Voters has issued a formal call for its fifth annual convention to be held here April 24 to 29, inclusive.

The convention, which will be presided over by Mrs. Maude Wood Park, national president of the league, will mark the opening of an intensive nationwide campaign to "get out the vote" for the 1924 election.

"In the election of 1920, for the first time in the history of our nation, women throughout the United States were entitled to vote," the call for the convention reads.

"Most of them were strangers in the great domain of public affairs. They had much to learn. Year by year since then the league has carried on with increasing success the work of educating women for the primary duty of good citizenship—the casting of an informed and conscientious vote."

"At Buffalo, the league will gather with another national election ahead, an election in which the work of our four years will be tested."

**FORBES GIVES  
\$10,000 BOND**

**FOR APPEARANCE BEFORE FEDERAL COURT IN CHICAGO MARCH 17**

(By United Press)  
Washington, March 6.—Charles R. Forbes, former veterans' bureau head today gave \$10,000 bond for his appearance before the federal court in Chicago on March 17.

Forbes appeared before United States Commissioner George H. McDonald here, and pleaded not guilty to two charges of conspiracy to defraud the United States government, and one charge of accepting bribe.

Forbes was indicted by a Chicago grand jury on charges of seeking bribes from contracting interests headed by J. W. Thompson, St. Louis, and of having entered into agreement with a group of contractors to allot to them all veterans' bureau construction contracts.

**CHORUS GIRL DEAD AND BALL  
PLAYER CHARGED WITH  
MANSLAUGHTER**

(By United Press)  
Milwaukee, March 6.—Margie Thomas, 23, chorus girl said to live at Sheboygan, Wis., is dead and Wm. Hoppe, baseball player, is charged with manslaughter, following an automobile accident here early today.

According to Sheriff Westfahl, the girl was killed and Hoppe received serious injuries when the roadster in which they were riding crashed into a concrete light pole.

**REPUBLICANS  
ASSEMBLED AT  
COURT HOUSE**

**ALSO EXPRESSED APPROVAL OF  
WORK OF CONGRESSMAN  
KNUTSON**

**DELEGATES ELECTED TO THE  
STATE AND DISTRICT CON-  
VENTIONS**

Crow Wing county republicans in convention assembled yesterday afternoon declared solidly for President Coolidge and so instructed their delegates to vote. The convention assembled in the farmers' room of the court house. Blessed with fair weather, it enabled a large number of delegates from the range and rural districts to attend, the convention thus giving fair expression to sentiment of republicans from all sections.

The meeting was called to order by County Chairman D. D. Schrader of Brainerd. R. J. Harte of Pequot was elected chairman of the convention.

Credentialed and resolutions committees were appointed. Mr. Schrader was re-elected county chairman and Mrs. J. A. Thabes was re-elected secretary. The county chairman was authorized to appoint his own county committee. Elected by a rising vote, Mr. Schrader polled 46 out of 52 votes.

**Resolutions Adopted**  
The resolutions committee, D. B. McAlpine, Ironton, chairman; and Mrs. Maud Fearing, Crosby; J. A. Wilson, Dr. C. A. Nelson, Brainerd; C. W. Potts, Deerwood, offered these resolutions, which were adopted without a dissenting voice:

"That we hereby reaffirm the principles and policies of the republican party and representative government."

"That we regret the sudden death of that worthy and noble character, Warren G. Harding."

"That we believe our party meets the aspirations of the American people and presents the best methods of government of all classes."

"That we have in President Calvin Coolidge the highest type of true American citizen, honest, sincere and able; that we rejoice in his leadership, and pledge ourselves to support his candidacy for the republican nomination for president of the United States, feeling confident that he will deal wisely with the trying conditions of the times in national and world affairs, and that his administration of that high office has received and will continue to meet with the approval of the vast majority of his fellow citizens."

"That the delegates elected here today to represent this district at the national convention to be held in Cleveland on June 10, 1924, be instructed to cast their vote for President Coolidge until he is nominated President of the United States by said convention."

"That we approve of the position taken in important national legislation by Hon. Harold Knutson, member of congress, and desire to express our confidence in his integrity and fair conduct in the fulfillment of his duties."

"That we recommend a weeding out of all public officials who are proven to be corrupt, dishonest, or whose official actions are influenced by motives of personal gain."

**Delegates Elected, State Convention**  
These 12 delegates were elected to the state convention:

Brainerd—W. H. Gemmell, Mrs. E. J. Quinn, R. R. Wise, Mrs. A. C. Weber, D. D. Schrader.  
Ironton—D. B. McAlpine, P. J. Long.

Deerwood—C. W. Potts.  
Crosby—Mrs. Harry Angst, Mrs. Maude Fearing, Edward P. Scallon.  
Pequot—Attorney Heath.

**MAGNUS JOHNSON  
FIGHTS FOR TWO  
FARM RELIEF BILLS**

(By United Press)  
Washington, March 6.—Opposition in the senate to the passing of either the Norbeck-Burness bill for farm relief or the McNary-Haugen bill is being fought by Magnus Johnson, who said on the floor of the senate:

"The manufacturer has his hand in the pocket of the wholesaler, the wholesaler has his hand in the pocket of the retailer, and the retailer has his hand in the pocket of the farmer, but where is the pocket into which Mr. Farmer can put his hand? There is none."

Asked by McLean of Connecticut why the farmer didn't go ahead and set his prices, Johnson said: "I am willing to throw away all of the pending bills if the senate and house representatives will get behind a proposition to help organize the farmers, so they can ascertain the cost of production. When they sent me down here they said maybe you can help us out. You can't make things any worse for us than the republicans have."

**GRAIN HURT BY  
FREAK WEATHER**

(By United Press)  
Washington, March 6.—The freakish weather of the past several months has produced damaging results upon crops of winter grains, a survey just completed by the department of Agriculture revealed.

Repeated freezing and thawing throughout the heart of the grain belt has produced a condition there which the department characterizes as being "very low." Another cause was the lack of a snow cover to protect the seed grain sown in the autumn.

The weather was most unfavorable to wheat, the chief crop of the grain belt, the report said. Winter oats also have suffered from freezing and thawing and in southern areas killed out so badly that in many places replanting is already in progress. Rye has suffered less and is reported generally to be in fair condition.

Reports from New Jersey, Pennsylvania, Virginia, Georgia, South Carolina, Alabama, Tennessee, Indiana, West Virginia, North Carolina, Illinois and Oklahoma show great damage to wheat crops while in Maryland and Delaware the condition is termed as "fair." Wheat shows little damage from low temperatures in Nebraska, Iowa, Kansas and Missouri and in Colorado the condition is "fairly good." In California the condition is "improved."

Rye and barley crops were severely damaged in Kentucky and West Virginia by cold weather. In Alabama, Georgia, Tennessee and the Carolinas these crops have been damaged in spots only. A "poor condition" prevails in Illinois and Indiana where a sufficient snow cover has been lacking.

Oats have been killed by freezing in the states of Tennessee, Alabama and Georgia and badly damaged in the Carolinas. Considerable damage is reported also in Texas, Mississippi and Louisiana.

Bad roads are retarding movement of corn in the corn belt and there is a great demand for seed. For the same reason many sections of the south, where the ground is ready for seeding, the potato sowing is being delayed.

**6,000 CLAIMS STAKED**

North Bay, Ontario, March 6.—More than 6,000 mining claims involving 240,000 acres of land were staked by mining men and prospectors in northern Ontario in 1923.

the district convention to be held in Brainerd, Friday, March 7:

Brainerd—Dr. J. A. Thabes, D. E. Whitney, J. A. Wilson, Mrs. C. W. Rasch, Dr. C. A. Nelson, Mrs. W. C. Mannis, D. D. Schrader.  
Pequot—R. J. Harte.  
Ironton—A. H. Proctor, D. B. McAlpine.  
Deerwood—John A. Oberg.  
Crosby—Mrs. C. Lewis.

MOUTH, IOWA**

**ENGINE OF CHICAGO, MILWAU-  
KEE RAILROAD TIPPED OVER,  
LEAVING TRACKS**

(By United Press)  
Portsmouth, Iowa, March 6.—Tom Pendy, engineer of the Chicago, Milwaukee & St. Paul railroad, was killed when the train was derailed near here early today.

No other injuries to members of the crew or passengers was reported. The engine tipped over, leaving the tracks.

The limited left San Francisco on Monday, and was due in Chicago today. Wrecking crews state that the track will be cleared, and the train will arrive in Chicago at 7 o'clock tonight.

Faulty rails caused the wreck, officials of the road believe. Coaches did not leave the rails, but passengers were thrown from their berths and slightly shaken up. The wreck will not delay other trains on the main line, officials said.

**ENGINEER'S HAND  
STILL ON THROTTLE**

Persia, Iowa, March 6.—Tom Pendy of Perry, Iowa, engineer of the Chicago, Milwaukee & St. Paul fast train number 20, was instantly killed and nearly a score suffered injuries when the train left the tracks about three miles north of here today.

All the coaches except the observation car were derailed. The baggage man and fireman were seriously injured. Most of the passengers received only slight cuts and bruises. Searchers found the body of the engineer still in the engine cab, with his hand on the throttle.

Passengers were removed and taken to Portsmouth, the first station north of here where they will remain until the tracks are cleared sufficiently to allow traffic to resume.

No cause for the accident has been determined.

**SAYS U. S. WOMEN  
NEGLECT THEIR FEET**

(By United Press)  
Los Angeles, March 6.—American women are shamefully neglectful of their feet, according to Leon Bakst, famous Russian costume designer, a visitor here.

"Why is it that American women, perhaps the most beautiful in the world, persist in devoting all their care to their faces and entirely neglect cultivation of beautiful feet?" Bakst asked.

"In France one finds the feet of women their most precious possession. Of other European countries this is also true, but here in America everything is given over to the face, while the feet are utterly neglected. I firmly believe that I am capable of reading a woman's character at first sight, even without seeing her face, if I am permitted to watch her feet in unguarded moments."

**BOAT FOUND, RELIC  
OF THE STONE AGE**

London, March 6.—A boat, which experts say is at least 5,000 years old, has been found, undamaged, in the mud at Elmley Ferry marshes. It lay seven feet under the surface. It is eleven feet long and 3 feet wide and has been hollowed out of the trunk of an oak tree. It was found not far from the banks of the Swale, a tidal river.

The boat is believed to be a relic of the Neolithic, or newer stone age, which ended in England from 1,500 to 2,000 years before Christ, when bronze took the place of stone.

## SMUGGLERS ARE USING U. S. MAILS

### PECULIAR METHODS OF SMUGGLING ARTICLES INTO THIS COUNTRY DISCOVERED

(By United Press)  
Washington, March 6. — A more rigid inspection of mail articles, including books and foreign newspapers and periodicals, on the part of customs officials in an effort to stop the entry into this country of articles which are prohibited and to stop evasion of payment of duty is likely to be put into effect soon, it has been indicated by Treasury officials.

The revised mail regulations provide that customs officials may examine newspapers received in the mail from foreign countries and declare that all postal employees shall aid the customs men in this work.

Some interesting cases of attempted smuggling of articles into this country from abroad have recently come to light here through the work of the customs officials attached to the Washington, D. C., postoffice. They have furnished the Treasury Department with full details.

### A Liquid Book

Among the articles turned over to the Treasury was an ordinary mail package from France consisting of a book in the English language. The compact pages had been mortised and in which was found a pearl stick pin pierced two small bottles of alcoholic liquor in the hope that they would arrive here without detection on the part of the American customs men.

Another mail package from France contained another book in which had been concealed a woman's kid glove in which was found a pearl stick pin of considerable value.

One single wrapped newspaper from Kobe, Japan, contained a hand-made lace bonnet cap and a hand-made lace centerpiece. They are declared by customs men to be of considerable value.

One box of innocent appearing candy was held up by the officials here and upon opening several pieces of the candy they were found to be filled with a highly potent wine from

Bermuda. The package had come from Hamilton, Bermuda.

All of these articles have been held up as evidence of the attempted fraud which is going on between persons out of the United States and individuals here. A closer inspection of articles coming in through the mail is believed to be the solution of the problem and it is likely that it will be put into effect soon.

## MUSICAL CONDUCTOR BEAT AIRSHIP MAN

New York, March 5.—Willem Mengelberg, conductor of the New York Philharmonic, who is becoming well known to music fans throughout the United States through the medium of his concerts through Station WEA, was the winner of a recent popularity contest conducted by the Dutch Illustrated weekly, "Het Leven," published in Amsterdam. Holland is Mengelberg's native land and that he is exceedingly popular was proved by the fact that on 15,266 ballots submitted, Mengelberg's name appeared on 14,943. One of his notable rivals was A. H. G. Fokker, the airship builder, who finished in fourth place.

Billings, Montana, former Brainerd residents, are visiting relatives and friends in the city. They were called here by the death of Mr. Olson's mother, Mrs. Robert Archibald of Deerwood. Mr. Olson is connected with the "White Company" in Billings, selling White trucks.

## SMUGGLERS ARE USING U. S. MAILS

### PECULIAR METHODS OF SMUGGLING ARTICLES INTO THIS COUNTRY DISCOVERED

(By United Press)  
Washington, March 6. — A more rigid inspection of mail articles, including books and foreign newspapers and periodicals, on the part of customs officials in an effort to stop the entry into this country of articles which are prohibited and to stop evasion of payment of duty is likely to be put into effect soon, it has been indicated by Treasury officials.

The revised mail regulations provide that customs officials may examine newspapers received in the mail from foreign countries and declare that all postal employees shall aid the customs men in this work.

Some interesting cases of attempted smuggling of articles into this country from abroad have recently come to light here through the work of the customs officials attached to the Washington, D. C., postoffice. They have furnished the Treasury Department with full details.

### A Liquid Book

Among the articles turned over to the Treasury was an ordinary mail package from France consisting of a book in the English language. The compact pages had been mortised and in which was found a pearl stick pin.

Another mail package from France contained another book in which had been concealed a woman's kid glove in which was found a pearl stick pin of considerable value.

One single wrapped newspaper from Kobe, Japan, contained a hand-made lace bonnet and a hand-made lace centerpiece. They are declared by customs men to be of considerable value.

One box of innocent appearing candy was held up by the officials here and upon opening several pieces of the candy they were found to be filled with a highly potent wine from

Bermuda. The package had come from Hamilton, Bermuda.

All of these articles have been held up as evidence of the attempted fraud which is going on between persons out of the United States and individuals here. A closer inspection of articles coming in through the mail is believed to be the solution of the problem and it is likely that it will be put into effect soon.

## MUSICAL CONDUCTOR BEAT AIRSHIP MAN

New York, March 5.—Willem Mengelberg, conductor of the New York Philharmonic, who is becoming well known to music fans throughout the United States through the medium of his concerts through Station WEAF, was the winner of a recent popularity contest conducted by the Dutch illustrated weekly, "Het Leven," published in Amsterdam. Holland is Mengelberg's native land and that he is exceedingly popular was proved by the fact that on 15,266 ballots submitted, Mengelberg's name appeared on 14,943. One of his notable rivals was A. H. G. Fokker, the airship builder, who finished in fourth place.

## THADDEAS SURBER ADDRESSES LIONS

State Game and Fish Department Official Spoke on Maintaining Water Levels

### PRESERVING FISH LIFE

Low Water in Mississippi, South of St. Paul, Has Killed Thousands of Fish

Thaddeas Surber, of the state game and fish department, was the honor guest at the weekly luncheon of the Lions club Wednesday evening, coming to the city especially to speak to that organization on the subject of maintaining water levels in lakes throughout the state and preserving fish life in both streams and lakes.

Several causes were given by Mr. Surber for low water levels in Minnesota lakes. The removal of the forests in the northern part of the state has increased evaporation very materially, and has dried up the springs that fed both streams and lakes.

The low water in the Mississippi river, especially south of the twin cities, has been the means of killing thousands of fish. The amount of pollution in the river caused from sewage has not been carried away as rapidly as it would be if the river level were normal, and this has poisoned much of the fish life, contends Mr. Surber.

Water levels in the lakes of southern Minnesota have suffered much more than those of the northern section, said the speaker, and some of the finest bodies of water in the former are rapidly drying up with no remedy at hand to stop the menace. It is hoped by the game and fish department that measures will be taken by the next legislature to permit the department to dam the outlets of these lakes, thus holding the contents. But until such legislation is enacted, nothing can be done to remedy the evil. Mr. Surber stated that he would like to see a dam at the outlet of every lake of any importance, all dams to be under the control of the state game and fish department.

The Brainerd district has been very fortunate, in that it has not suffered as much from low water levels in its lakes and streams as other sections of the state have, said the speaker, and local sportsmen should do all in their power to maintain or increase these levels.

Under present conditions, sportsmen from the entire Northwest will sooner or later look to the 10,000

lakes district for their fishing and for spending their vacations, so that it behooves the residents of this section to see to it that one of its greatest assets is preserved.

Mr. Surber spoke of the small streams of northeastern Minnesota, that empty into Lake Superior. Before the forest were removed in that region, these streams boasted of large numbers of trout, but since the timber has been taken away, the temperature in summer of the water in the streams has become so warm that trout cannot live in them. It is the plan of the state fish and game department to substitute in these waters small mouth bass, thus restocking that section with a good game fish.

The speaker dwelt at some length on the matter of maintaining the water level in Gull lake, and in improving the natural fish hatchery just below this body of water. The level of Gull lake effects other lakes tributary to it, and if the amount of water that goes over the dam at the outlet of Gull lake can be decreased without injuring fish life in the river below, necessary steps will be taken to hold a higher level in the lake.

It is the intention of the game and fish department, said Mr. Surber,

to develop the natural fish hatchery below the Gull lake dam, beginning this summer. The department fully appreciates the importance of this resource and intends to build a small dam below the hatchery and a caretaker's house to properly care for the fish that will be propagated. These fish are to be used in stocking lakes and streams in the Brainerd territory and also in the Lake Superior region.

Mr. Surber has had over twenty years experience in government and state fish service, and is now connected with the latter in the work of fish propagation. He states that the state department is alive to the needs of the state and is very anxious to co-operate with every locality in maintaining and increasing its fish life.

**Special Lenten Services**

## PUBLICITY ABOUT LOTTERIES PROHIBITED BY GOVERNMENT

THE DISPATCH gives prominence to this clipping sent various papers of the state by the Winona Republican-Herald relative to the government prohibiting publicity about lotteries. The article is of importance and its contents should be studied:

The Republican-Herald frequently has occasion to decline to publish information, either in the news or advertising columns, regarding enterprises which are classed by postal authorities as lotteries.

Postal regulations are both sweeping and plain in their prohibition against use of the mails to convey information about lotteries, or about any contest in which a lottery is a part. Newspapers which violate the regulations are subject to rejection from the mails. The prohibition also applies to circulars, letters, pamphlets or other matter sent through the mails.

The Republican-Herald, in declining to publish notices of lotteries or contests containing a lottery phase, is acting in compliance with the postal regulations in order that it may continue to have the privilege of sending the paper to subscribers through the mails. Should it disregard such regulations, it has been warned by the postal authorities that speedy action would be taken to bar the paper from the mails, and that a fine might be imposed.

The government regulations applying to lotteries are sweeping and inclusive. They make no distinction between a carnival and a church bazaar, between a lottery for charitable purposes and one for private gain, or between the raffle of an automobile and the raffle of a pin cushion.

It should be understood that the regulations in question apply, not to the raffle or lottery itself, but to publicity about the raffle or lottery, the government's idea in adopting the regulation being that the most effective way of preventing such practices would be to prohibit publicity about them.

The Republican-Herald is not directly concerned with the fact that the state law prohibiting lotteries is not enforced, but it is vitally concerned in the fact that the federal government, through the post-office department, has specifically warned it that regulations forbidding publicity about lotteries would be enforced.

The Republican-Herald is likewise not very much interested in the fact that the postal regulations against lotteries are not enforced in many other cities, and that postmasters and inspectors elsewhere turn a blind eye to violations of the law. The fact that The Republican-Herald is held to strict accountability is sufficient.

The Republican-Herald quotes the following extract from the United States Postal Guide bearing on the situation:

"The attention of postmasters and railway clerks is directed to section 482 of the postal laws and regulations, by the provisions of which newspapers or other publications of any kind, circulars and pamphlets, containing advertisements of lotteries, gift enterprises, or similar schemes offering prizes dependent in whole or in part upon lot or chance, or lists of prizes awarded in pursuance of such schemes, and other matter relating to them, are declared to be unlawful."

"The terms 'lottery, gift enterprise, or similar scheme offering prizes dependent in whole or in part upon lot or chance,' as used in that section, include 'guessing' or 'estimating' contests for prizes, AS WELL AS DRAWINGS AND RAFFLES OF EVERY KIND, WHETHER GENERAL OR LOCAL, WHETHER FOR PRIVATE GAIN OR IN AID OF CHARITABLE, EDUCATIONAL, OR RELIGIOUS OBJECTS, AND WHETHER THE CONSIDERATION FOR CHANCES BE MONEY OR OTHER THING OF VALUE."

"Enterprises in which prizes are distributed among purchasers of merchandise in stated amounts, or among subscribers for publications, or for shares of corporate stock, through the medium of drawings or guessing contests, are lotteries within the meaning of that section. Publications, circulars, cards, or pamphlets containing advertisements of such enterprises, or notices or other information of any kind relating to them, should be withdrawn from the mails and treated in accordance with sections 547, 574, and 593 of Postal Laws and Regulations."

## ALL WILLING TO DO SHARE

SOLICITORS for the Heart Fund, who are giving their time to the splendid work of bringing this opportunity to the people, have reason for being mighty proud of the folks that live in Brainerd.

The response to the appeal to "Put Your Heart Back of Her Service—Invest in Humanity" is noble.

The teams find almost no one who is not more than willing, even anxious, to do his share.

They find few who give inadequately. There are many, of course, who give only small amounts; but often a small gift, when means are considered, is a more generous gift than a large one.

There can be no doubt that the need will be met and the "quota will be inflated."

The field is being covered quickly. Everyone is being given the chance to give. And the nature of the response from an overwhelming majority of those approached is such that those who are by chance overlooked are pretty likely to send their contributions to headquarters at the Chamber of Commerce.

It will be a splendid thing to have this fund fully subscribed, so that the Salvation Army can go ahead, free of financial worries, to do their work of mercy.

All eyes are now centered upon the Cuyuna range where Hon. Edward P. Scallon has charge of the Heart Fund campaign. Mr. Scallon yesterday announced that some of the mining companies of the range had already given gifts aggregating \$125. The main campaign commences today.

From Pequot comes the report from Heart Fund Chairman Julius Nelson that the American Legion are putting over the effort at a big "send-off" tonight.

From Merrifield comes a report from Heart Fund Chairman Quinn Parker that the heart fund will be all complete by Saturday.

From Jenkins comes a report from Wesley Curo, chairman, saying that they are going right after things and will be complete by Saturday.

From Pine River comes a report from E. B. Dahl saying that the campaign is going right ahead and that the fund will be subscribed by Saturday.

## ALL FOR COOLIDGE

THE recent republican county convention was wholly for Coolidge and paid his administration a high tribute. Furthermore, delegates were instructed to vote for Coolidge. The resolutions also recognized the worth and ability of Congressman Harold Knutson of our sixth district.

Brainerd will shortly entertain the district convention and over a hundred delegates are expected here Friday. It will draw attention to Brainerd as being a central meeting place for the district and will add to its fame as a convention center.

## \$30,000,000 Worth of Locomotives Sold by Telephone in Three Minutes

"Not long ago I concluded negotiations and took a thirty million dollar order over the telephone in three minutes," says Samuel M. Vauclain, President, Baldwin Locomotive Works, in a recent issue of *Success Magazine*.

"It saved perhaps five days in time," declared Mr. Vauclain. "Fifteen minutes after I had hung up the receiver the shops had started work on the order. In the old days, work would

not have been started until every paper had been signed.

"The telephone breeds confidence," says Mr. Vauclain, "and once that is established prosperity is certain. I can call up Havana and in five minutes or half an hour find out as much about the other fellow's point of view, and tell him as much about mine as I could by wasting ten days in a trip South."

Mr. Vauclain sells locomotives by telephone. Other men use it to sell flowers, fish, pencils, tires, specialties—scores of widely different products, more quickly and more economically. Do you sell by telephone?

## PUBLICITY ABOUT LOTTERIES PROHIBITED BY GOVERNMENT

THE DISPATCH gives prominence to this clipping sent various papers of the state by the Winona Republican-Herald relative to the government prohibiting publicity about lotteries. The article is of importance and its contents should be studied:

The Republican-Herald frequently has occasion to decline to publish information, either in the news or advertising columns, regarding enterprises which are classed by postal authorities as lotteries.

Postal regulations are both sweeping and plain in their prohibition against use of the mails to convey information about lotteries, or about any contest in which a lottery is a part. Newspapers which violate the regulations are subject to rejection from the mails. The prohibition also applies to circulars, letters, pamphlets or other matter sent through the mails.

The Republican-Herald, in declining to publish notices of lotteries or contests containing a lottery phase, is acting in compliance with the postal regulations in order that it may continue to have the privilege of sending the paper to subscribers through the mails. Should it disregard such regulations, it has been warned by the postal authorities that speedy action would be taken to bar the paper from the mails, and that a fine might be imposed.

The government regulations applying to lotteries are sweeping and inclusive. They make no distinction between a carnival and a church bazaar, between a lottery for charitable purposes and one for private gain, or between the raffle of an automobile and the raffle of a pin cushion.

It should be understood that the regulations in question apply, not to the raffle or lottery itself, but to publicity about the raffle or lottery, the government's idea in adopting the regulation being that the most effective way of preventing such practices would be to prohibit publicity about them.

The Republican-Herald is not directly concerned with the fact that the state law prohibiting lotteries is not enforced, but it is vitally concerned in the fact that the federal government, through the post-office department, has specifically warned it that regulations forbidding publicity about lotteries would be enforced.

The Republican-Herald is likewise not very much interested in the fact that the postal regulations against lotteries are not enforced in many other cities, and that postmasters and inspectors elsewhere turn a blind eye to violations of the law. The fact that The Republican-Herald is held to strict accountability is sufficient.

The Republican-Herald quotes the following extract from the United States Postal Guide bearing on the situation:

"The attention of postmasters and railway clerks is directed to section 482 of the postal laws and regulations, by the provisions of which newspapers or other publications of any kind, circulars and pamphlets, containing advertisements of lotteries, gift enterprises, or similar schemes offering prizes dependent in whole or in part upon lot or chance, or lists of prizes awarded in pursuance of such schemes, and other matter relating to them, are declared to be unlawful."

"The terms 'lottery, gift enterprise, or similar scheme offering prizes dependent in whole or in part upon lot or chance,' as used in that section, include 'guessing' or 'estimating' contests for prizes, AS WELL AS DRAWINGS AND RAFFLES OF EVERY KIND, WHETHER GENERAL OR LOCAL, WHETHER FOR PRIVATE GAIN OR IN AID OF CHARITABLE, EDUCATIONAL, OR RELIGIOUS OBJECTS, AND WHETHER THE CONSIDERATION FOR CHANCES BE MONEY OR OTHER THING OF VALUE."

"Enterprises in which prizes are distributed among purchasers of merchandise in stated amounts, or among subscribers for publications, or for shares of corporate stock, through the medium of drawings or guessing contests, are lotteries within the meaning of that section. Publications, circulars, cards, or pamphlets containing advertisements of such enterprises, or notices or other information of any kind relating to them, should be withdrawn from the mails and treated in accordance with sections 547, 574, and 593 of Postal Laws and Regulations."

## 1923 ROLL CALL OF RED CROSS

Total Amount as Raised in the County Came to \$856.91

### FIGURES GIVEN IN DETAIL

Crosby-Ironton Gave \$434, Rural \$53, Brainerd \$278.80

The following report of the 1923 Red Cross Call was submitted to the directors of the Red Cross at their regular meeting. Owing to the slowness of some of the rural districts in making their returns, this report may not be complete, but should other districts be heard from later it will be reported in these columns.

Crosby-Ironton \$434.00

#### Rural Districts

Trommald	\$20.00
Riverton	15.00
Deerwood	13.00
Bay Lake	2.00
Nisswa	2.00
Huseby District	1.00

Total \$53.00 53.00

\$487.00

Brainerd City Proper \$278.80

#### Schools

Washington	\$11.04
Whittier	35.00
Lowell	10.00
Lincoln	13.64
Harrison	11.75
Garfield	1.35
Riverside	1.33
St. Francis	7.00

Total \$91.11 91.11

Total County \$856.91

#### Disbursements

Amount returned to Crosby-Ironton	\$217.00
Amount to National Red Cross	326.50
Junior Red Cross Magazines	23.00

Total Disbursements \$566.50 566.50

Amount realized from Roll

Call by Brainerd Chapter \$290.41

Respectfully submitted

MRS. E. J. QUINN,

Chairman, Roll Call,

G. W. CHADBOURNE,

Secretary.

The auditing committee, appointed to audit the accounts of the Brainerd Chapter of Red Cross, certified that the following statement of the organization's finances are correct. The committee was composed of B. L. Lagerquist and R. J. Tinkelpaugh. The audit covers the period from November 28th, 1922 to November 26th, 1923.

Balance at beginning of the period \$130.32

Total receipts during period 1067.49

Amount withdrawn from savings deposit 500.00

Total \$1697.81

Total disbursements during the period 1370.86

Balance at end of period \$326.95

This cash balance at the end of the period has been verified and the accounts of the chapter agree with the financial reports made to central division.

Securities held by the Brainerd Chapter that are not included in the above figures are shown the sum of \$983.31 in the savings department of the First National Bank, together

with accumulated interest from July 1st, 1923 to November 26th, 1923.

### PRESIDENT'S TELEGRAM READ INTO RECORD

(Continued from Page 1)

of these returns to the committee would violate the law.

He added that he would take up with Secretary of the Treasury Mellon revision of the treasury regulations, so as to permit him to give the committee the data asked for.

### CODE TELLS BURNS' CONNECTION WITH SCANDAL

Washington, March 6.—A code of telegrams telling the story of William J. Burns' connection with the oil scandal inquiry, was deciphered by the senate investigation committee today.

The telegrams today from Mrs. Mary Duckstein to E. B. McLean advised him that Burns could not get away, and was being kept in Washington "on dome hearing."

The telegrams as deciphered by W. J. Freidman, signal code expert, follows:

"February 3, 1924.

"W. O. Duckstein,

"The Breakers, Palm Beach, Florida.

"Burns states lawyer friendly to department that an inquiry was on foot to ascertain whether McLean was regularly appointed 'dollar a year man' and asked him to find out. Department lawyer came to Burns and inquired. Burns said attorney general was only person who could give information regarding such appointments. Evidently preparing for mud slinging. Burns states impossible to say when he can get away. Being kept here on dome hearing. Department liable to be called upon at any time for investigation and to prepare injunctions.

**Can You Be Proud of Your Hair?**

Every woman may have glorious hair if she shampoos with

**JAP ROSE**

This truly different soap produces the soft, lustrous, luxuriant effect that inspires compliments. Jap Rose keeps the skin healthy, which makes it ideal for every toilet need.

"You Can FEEL the Tingle of Health"

**JAP ROSE SOAP**

Wretchedly lonesome. Best love. Wire me. Mary."

### ROW OVER "LEAK" IN COMMITTEE ROOM

Washington, March 6.—A row broke out in the committee executive session over an alleged "leak" from the committee room, which gave President Coolidge warning that the telegrams were to be read.

Dissension developed over the fact that Mr. Coolidge had been pre-warned of facts transpiring in secret session, and called a conference of his advisors at the White House last night.

Some threats were made to carry the fight to the floor of the senate, in an effort to ascertain who had given the secret information.

### ACTION ON SOLDIER BONUS ASSURED

Washington, March 6.—Action on the soldier bonus legislation in this congress was assured today, when the house ways and means committee voted to report out the bill compensating the veterans.

The vote was 16 to 3. Representa-

tives Treadway, Massachusetts, Pillsbury, Connecticut and Mills, New York, all republicans, opposing the legislation.

The form of the bill is yet to be decided. It will be worked out from the four plans now pending before the committee.

### COURT ACTION TO STOP WITHDRAWING OIL

Washington, March 6.—Court action to stop further withdrawal of oil from naval reserves was begun today by President Coolidge's special counsel, as a preliminary to suing for annulment of the leases.

A preliminary hearing on a petition for an injunction to stop further oil withdrawal from the Sinclair lease of Teapot Dome will be held March 13th at Cheyenne, Wyo., it was announced at the office of Atlee Pomerene and Owen J. Roberts, the special counsel.

Immediately thereafter, a similar injunction will be asked for in Los Angeles, regarding the Doheny leases.

A special federal grand jury to consider criminal prosecution of persons involved in the leasing will be con-

vened in Washington about April 1st, it was stated.

### REOPEN DAUGHERTY RESIGNATION CASE

Washington, March 6.—President Coolidge has "reopened" the question of Attorney General Daugherty's resignation, according to information from persons close to him.

Recent developments which have furnished the president with additional information concerning the department of justice, are held to be responsible.

While the senate committee named to investigate Daugherty today was sifting a great mass of tips and "leads" preliminary to beginning opening of hearings next week, Mr. Coolidge was understood on excellent authority to be again considering whether he should ask Daugherty to withdraw.

Daugherty himself was on his way back to Washington from Miami, Florida, prepared to assume active charge of the department of justice, and to defend himself before the senate committee.

### Poland is Arming

(By United Press)  
Warsaw, March 6.—After a heated debate, the Sejm has passed a bill establishing compulsory military service, the period with the colours to be two years.

The Socialists bitterly opposed the measure. Graduates of high schools or other secondary institutions will serve only eighteen months.

WANT AD CALL IS 74

## 1923 ROLL CALL

## OF RED CROSS

Total Amount as Raised in the County Came to \$856.91

## FIGURES GIVEN IN DETAIL

Crosby-Ironton Gave \$434. Rural \$53. Brainerd \$278.80

The following report of the 1923 Red Cross Call was submitted to the directors of the Red Cross at their regular meeting. Owing to the slowness of some of the rural districts in making their returns, this report may not be complete, but should other districts be heard from later it will be reported in these columns.

Crosby-Ironton \$434.00  
Rural Districts  
Trommald \$20.00  
Riverton 15.00  
Deerwood 13.00  
Bay Lake 2.00

Washington \$11.04  
Whittier 35.00  
Lowell 10.00  
Lincoln 13.64  
Harrison 11.75  
Garfield 1.35  
Riverside 1.33  
St. Francis 7.00

Total \$91.11 91.11  
Total County \$856.91

Disbursements  
Amount returned to Crosby-Ironton \$217.00  
Amount to National Red Cross 326.50  
Junior Red Cross  
Magazines 23.00

Total Disbursements \$566.50 566.50

Amount realized from Roll  
Call by Brainerd Chapter \$290.41  
Respectfully submitted  
MRS. E. J. QUINN,  
Chairman, Roll Call.  
G. W. CHADBOURNE,  
Secretary.

The auditing committee, appointed to audit the accounts of the Brainerd Chapter of Red Cross, certified that the following statement of the organization's finances are correct. The committee was composed of B. L. Lagerquist and R. J. Tinkelpaugh. The audit covers the period from November 28th, 1922 to November 26th, 1923.

Balance at beginning of the period \$130.32  
Total receipts during period 1067.49  
Amount withdrawn from savings deposit 500.00  
Total \$1697.81  
Total disbursements during the period 1370.86

Balance at end of period \$326.95  
This cash balance at the end of the period has been verified and the accounts of the chapter agree with the financial reports made to central division.

Securities held by the Brainerd Chapter that are not included in the above figures are shown the sum of \$983.31 in the savings department of the First National Bank, together

with accumulated interest from July 1st, 1923 to November 26th, 1923.

PRESIDENT'S TELEGRAM  
READ INTO RECORD  
(Continued from Page 1)

of these returns to the committee would violate the law.

He added that he would take up with Secretary of the Treasury Mellon revision of the treasury regulations, so as to permit him to give the committee the data asked for.

## CODE TELLS BURNS' CONNECTION WITH SCANDAL

Washington, March 6.—A code of telegrams telling the story of William J. Burns' connection with the oil scandal inquiry, was deciphered by the senate investigation committee today.

The telegrams today from Mrs. Mary Duckstein to E. B. McLean advised him that Burns could not get away, and was being kept in Washington "on dome hearing."

The telegrams as deciphered by W. J. Friedman, signal code expert, follows:

"February 3, 1924.  
"W. O. Duckstein.  
"The Breakers, Palm Beach, Florida.

"Burns states lawyer friendly to department that an inquiry was on foot to ascertain whether McLean was regularly appointed 'dollar a year man' and asked him to find out. Department lawyer came to Burns and inquired. Burns said attorney general was only person who could give information regarding such appointments. Evidently preparing for mud slinging. Burns states impossible to say when he can get away. Being kept here on dome hearing. Department liable to be called upon at any time for investigation and to prepare injunctions.

Wretchedly lonesome. Best love. Wire me. Mary."

## ROW OVER "LEAK" IN COMMITTEE ROOM

Washington, March 6.—A row broke out in the committee executive session over an alleged "leak" from the committee room, which gave President Coolidge warning that the telegrams were to be read.

Dissension developed over the fact that Mr. Coolidge had been pre-warned of facts transpiring in secret session, and called a conference of his advisors at the White House last night.

Some threats were made to carry the fight to the floor of the senate, in an effort to ascertain who had given the secret information.

## ACTION ON SOLDIER BONUS ASSURED

Washington, March 6.—Action on the soldier bonus legislation in this congress was assured today, when the house ways and means committee voted to report out the bill compensating the veterans.

The vote was 16 to 3, Representa-

tives Treadway, Massachusetts, Pillsbury, Connecticut and Mills, New York, all republicans, opposing the legislation.

The form of the bill is yet to be decided. It will be worked out from the four plans now pending before the committee.

## COURT ACTION TO STOP WITHDRAWING OIL

Washington, March 6.—Court action to stop further withdrawal of oil from naval reserves was begun today by President Coolidge's special counsel, as a preliminary to suing for annulment of the leases.

A preliminary hearing on a petition for an injunction to stop further oil withdrawal from the Sinclair lease of Teapot Dome will be held March 13th at Cheyenne, Wyo., it was announced at the office of Atlee Pomerene and Owen J. Roberts, the special counsel.

Immediately thereafter, a similar injunction will be asked for in Los Angeles, regarding the Doheny leases.

A special federal grand jury to consider criminal prosecution of persons involved in the leasing will be con-

vened in Washington about April 1st, it was stated.

## REOPEN DAUGHERTY RESIGNATION CASE

Washington, March 6.—President Coolidge has "reopened" the question of Attorney General Daugherty's resignation, according to information from persons close to him.

Recent developments which have furnished the president with additional information concerning the department of justice, are held to be responsible.

While the senate committee named to investigate Daugherty today was sifting a great mass of tips and "leads" preliminary to beginning opening of hearings next week, Mr. Coolidge was understood on excellent authority to be again considering whether he should ask Daugherty to withdraw.

Daugherty himself was on his way back to Washington from Miami, Florida, prepared to assume active charge of the department of justice, and to defend himself before the senate committee.

## Poland is Arming

(By United Press)  
Warsaw, March 6.—After a heated debate, the Sejm has passed a bill establishing compulsory military service, the period with the colours to be two years.

The Socialists bitterly opposed the measure. Graduates of high schools or other secondary institutions will serve only eighteen months.

## BRAINERD PURSE STRINGS LOOSED

All Are Giving Generously and Responding to Salvation Army Heart Fund Appeal

### WORKERS ARE ENERGETIC

American Legion, Lions, Rebekah Social Club Members Turn in Gratifying Reports  
Returns to the Heart Fund campaign to date indicate that Brainerd purse strings are loosed to give generously to the Salvation Army Home Service Fund, according to campaign headquarters this morning.

"Brainerd's Heart Fund campaign has made a good start," said members of the Elks steering committee this morning. "The figures now stand at \$900 with reports from but few of the workers available. It is expected the team will all report by Friday noon. Figures will then be available from the remainder of the districts in a short time."

An appeal was given this morning to all workers to bend every energy to closing up the campaign by Friday noon. This is absolutely necessary because other campaign plans come on Saturday which will conflict with solicitation. "We cannot hope to go over the top unless every worker finishes by Friday noon" was the appeal, "but if every team functions we will according to averages to date, go over the allotted goal."

**Up to Workers**  
"Our only real trouble now," said Norman A. Borgen, campaign manager, "is to arouse our workers to complete all of their district within the set time. Of one thing we are confident; that is that if our teams will cover their districts well, we will have the \$2,400."

Members of the American Legion, Lions Club, Rebekahs Social Club, Women's Relief Corps and Odd Fellows yesterday turned in gratifying reports.

**Hut Has Good Business**  
The returns from the Doughnut Hut at 212 South 6th street yesterday was \$17, was the announcement this morning from the Business and Professional Women's Club committee in charge of the hut. Everyone is urged to patronize the hut, as it will close Saturday evening.

## CAVERT MEETS WITH FARMERS

Farm Expert of University Farm Visits Farm Bureau Units of County

### FARM MANAGEMENT TOPIC

Other Subjects for Discussion Include Pure-bred Dairy Sires Offer of Chamber of Commerce

William Cavert, farm expert from the university farm, is meeting with farm bureau units in Crow Wing county, addressing the members on the important subject of farm management.

On Wednesday the Niswaga community club met at noon at the Swanson store in that village.

Thursday noon the Twin Lakes farm bureau unit met at the home of O. M. Olson, beginning with a chicken dinner. Thursday evening the Baxter club meets at the schoolhouse four miles west of Brainerd, and on Friday evening the Oak Lawn unit meets in the Oak Lawn town hall.

Mr. Cavert is scheduled to address all of these meetings, and much interest is manifested among the farmers in what he will have to say.

Other important subjects to come up for discussion at these meetings include the pure-bred dairy sires that the Brainerd Chamber of Commerce proposes to furnish farmers of the county; poultry raising and marketing of poultry products, and the growing of alfalfa in this county, a crop that is gaining in favor among the majority of local farmers, who have already ordered large quantities of seed for this spring's planting.

### Surprise Party

A surprise party was given in honor of Mr. and Mrs. Emil Hildebrandt, the occasion being their fifteenth wedding anniversary and also Mrs. Hildebrandt's birthday.

Twenty-five guests were present. The evening was spent informally in dancing, and cards. A delicious luncheon was served.

## ST. PATRICK'S PLAY MARCH 17

St. Francis Guild to Present Charming Home Talent Play at the New Park Theatre

### FRANK SEARS IS DIRECTOR

In Addition to the Play, Some of Brainerd's Best Musical Talent is to be Heard

On the evening of St. Patrick's Day, March 17th, the St. Francis Guild will put on a very fine home talent play, "Among the Breakers."

Frank Sears, who has gained an enviable reputation for his ability in this line, has kindly consented to put on a play for the Guild. A very fine cast has been drawn and rehearsals are well under way.

In addition to the play, some of Brainerd's best musical talent will entertain between acts. This will be a welcome break in the Lenten season, so all should be sure and hold the date open. Tickets may be secured from any member of St. Francis Guild and will also be on sale in some of the business houses, names of which will be announced later.

### AD CORRECTION MADE ON DODGE

The Dispatch yesterday made an error in setting copy on Dodge four passenger coupe prices. Copy on prices for the touring car were inadvertently attached to the four passenger coupe of Dodge Brothers.

The coupe advertisement, corrected, is run again today and readers will please note the correct price attached thereto.

The four passenger coupe is \$1375 f. o. b. Detroit, \$1525 delivered. The touring car is \$895 f. o. b. Detroit, \$1005 delivered.

### LARKIN C. JOHNSON DIED

Spinal Meningitis Caused Death of Young Son of Fred M. Johnson

Larkin Calvin Johnson, son of Mr. and Mrs. Fred M. Johnson, passed away recently, death being caused by spinal meningitis.

He was born on December 11th, 1917 and spent his short life in this city. Services were held by the Christian Science society at the Eagle Lake school house, and interment made at the cemetery in Emily.

## AIRPLANE SAFER THAN TRAIN FOR TREASURE TRANSPORT

Paris, March 6.—The airplane is the safest transport. This is the opinion of many on both sides of the English Channel, and is backed up by insurance companies, whose rates by air are only half the railway and boat costs.

The most valuable airplane cargo ever carried across the channel, a hundred pounds of platinum, has been delivered safely in Paris, from Croydon. Shippers use the air route to transport precious metals and jewels, not only because it is cheaper, but because it minimizes the liability of robbery and accident that would cause its loss. There is very little danger of falling into the sea, because pilots are instructed to reach an altitude that will always enable them to volplane to one coast or the other.

Recently a pilot came into a rough field in France with engine trouble and crashed upon landing. He was forced to leave his wreck to find help. When he returned a group of peasants had gathered, and one asked him what was the big box he was carrying as cargo. He did not know, but when it was lifted out, a stream of gold fell into the grass. But not a piece was missing.

### Creditors to the Rescue

"I understand that some of your creditors are pressing you." "I arranged that," answered Senator Sorghum. "In this era of investigation I want it made perfectly clear that I haven't more than enough money for my current expenses."—Washington Star.

## 67 CHAUFFEURS TOOK EXAMINATION

Largest Number Ever so Examined in This Brainerd District

### MAJORITY FROM BRAINERD

J. R. Tebo, State Examiner, in Charge—Eye Sight Tests by Dr. C. G. Nordin

Sixty-seven applicants took the examination for chauffeurs license in the municipal court room on Sunday, the largest number that has ever been examined for such licenses in this district.

The majority of those taking the examination, were of course, from Brainerd, but Merrifield, Nisswa, Pequot and Crosby were also represented. J. R. Tebo, state examiner, was in charge of the examination, which consumed most of the day. The eye sight tests were made under the direction of Dr. C. G. Nordin.

The reason given for the large number of applicants, is said to be the change in the state laws, requiring that anyone who drives an automobile, even though it be his own, for hire, either in transporting people or merchandise, must pass a chauffeur's examination, as well as those who drive for others.

This brings under the law, all draymen, and owners of taxi-cabs who drive their own vehicles, truck drivers, etc., as well as those who drive delivery trucks for wholesalers or retail concerns.

Those who already held chauffeur's licenses, and who renewed them before January 1st, were not required to take the examination last Sunday.

## FIRST BALLOON TIRES IN CITY

Ed. Blank of Brainerd Buys Dodge Sport Model so Equipped from Rosko Brothers

### ATTRACTS ATTENTION

Can Run Over Curb or Other Obstructions Without Any Appreciable Jar to Driver

To Rosko Brothers, Dodge Brothers car dealers, goes the honor of being the first to introduce balloon tires in Brainerd. Ed. Blank bought a sport model Dodge so equipped and the car has aroused a world of attention. The driver, in practice spins, ran over a curb and other obstructions without any appreciable jar to the car occupants. It is claimed it makes touring a pleasure and comes very close in driving sensation to an airplane floating along.

Robert Erickson, son of the florist has bought a Dodge special touring car. A recent carload of Dodges received by Rosko Brothers is meeting with a ready sale.

### Presbyterian Society

The Women's Missionary society of the Presbyterian church will hold its annual prayer service at the home of Mrs. George Hess, at 619 Pine St., on Friday evening, 8 o'clock. A splendid program has been arranged, and all members and friends are urged to be present.

## TAG DAY FOR A NEW CAR

Nurse Supervising Committee Discusses Plans for Such a Day in Early Spring

### HEALTH FUND IS NEEDED

Washington-Lincoln Parent-Teachers Furnish Milk to Under Weight Children

The nurse supervising committee met at the nurses office, March 3rd, the members present being Mrs. W. H. Gemmell, chairman, Elmer Dahl and Harry Gaskill.

The committee discussed plans for a tag day to be held this spring to raise money for a new car. The present car has been in use for two and a half years. It is hoped to raise enough for a health fund to be used for children needing defects corrected but who are unable to afford such attention.

The nurse's monthly report was submitted and accepted, being as follows:

Attendance in the public schools is reported as being back again to normal. During the month 281 home visits were made, including 26 cases of nursing care, 147 instructive or demonstration visits, 38 business calls, 18 visits of investigation, and 52 communicable diseases which included 25 cases of measles, five cases of mumps, 15 cases of conjunctivitis, three cases of impetigo and four of whooping cough. Five children were taken to the doctor and four to the hospital. Literature on tonsils, teeth and nutrition was given out during the month.

Sixty-two school visits were made and 80 children given a class room inspection for pediculosis and 159 individual pupils were inspected. Sixty-four defects were found and 29 had defects corrected. Eighteen children were found to have poor vision, 21 defective tonsils or nose, four with enlarged glands, and 18 were ten percent underweight.

The Washington-Lincoln parent teachers association is sponsoring the furnishing of milk to the children seven percent or more underweight in the Lincoln school. There are 33 children underweight who are receiving milk and about the same number who are not underweight, but whose parents have asked that they have the milk. The charge is 15c a week.

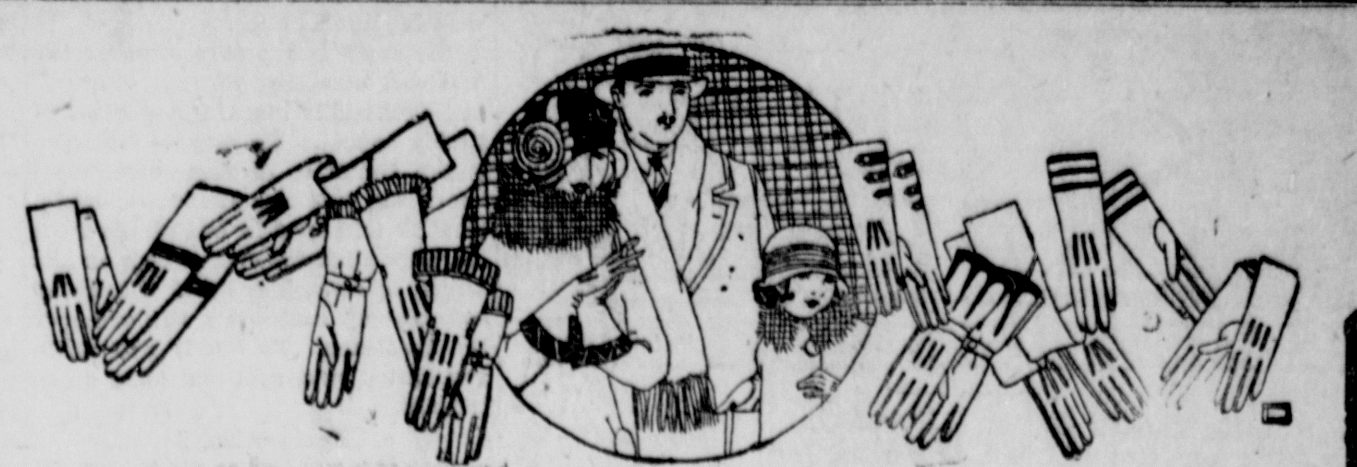

The dental clinics started again the first of March. E. W. Stimble, scout executive, very kindly printed on his mimeograph the notices which are to be sent to the parents, and the dentists will give of their time.

Two days were spent at Crosby assisting at the time of the mine disaster.

Four schools have started "Little Mother" classes. The material is furnished by the Division of Child Hygiene, state board of health. The teachers will give the instructions on home hygiene and the nurse will take the subject of infant hygiene.

The Lowell and Garfield parent teachers associations are signing up for the maternity and infant welfare classes. These classes are free and the material is sent from the state board of health and the university will give a certificate upon a satisfactory completion of this course. These classes are made possible by the passage of the Shepard-Towner bill.

In order to get a tax-exempt

## New Fancy Gloves Silk - Fabric - Kid

Fancy gloves have the preference these days. Fact is, most of them are fancy with beautiful gauntlets, many lined with high colored linings. We have just received our new Van Raalte silk gloves in the new spring styles and colorings. These are displayed in our windows.

## See Our Windows

You are missing a very pretty display if you miss seeing our daintily trimmed windows. They are lighted evenings.

## BRAINERD PURSE STRINGS LOOSED

All Are Giving Generously and Responding to Salvation Army Heart Fund Appeal

### WORKERS ARE ENERGETIC

American Legion, Lions, Rebekah Social Club Members Turn in Gratifying Reports

Returns to the Heart Fund campaign to date indicate that Brainerd purse strings are loosed to give generously to the Salvation Army Home Service Fund, according to campaign headquarters this morning.

"Brainerd's Heart Fund campaign has made a good start," said members of the Elks Steering committee this morning. "The figures now stand at \$300 with reports from but few of the workers available. It is expected the teams will all report by Friday noon. Figures will then be available from the remainder of the districts in a short time."

An appeal was given this morning to all workers to bend every energy to closing up the campaign by Friday noon. This is absolutely necessary because other campaign plans come on Saturday which will conflict with solicitation. "We cannot hope to go over the top unless every worker finishes by Friday noon" was the appeal, "but if every team functions we will according to averages to date, go over the allotted goal."

**Up to Workers**  
"Our only real trouble now," said Norman A. Borgen, campaign manager, "is to arouse our workers to complete all of their district within the set time. Of one thing we are confident; that is that if our teams will cover their districts well, we will have the \$2,400."

Members of the American Legion, Lions Club, Rebekahs Social Club, Women's Relief Corps and Odd Fellows yesterday turned in gratifying reports.

**Hut Has Good Business**  
The returns from the Doughnut Hut at 212 South 6th street yesterday was \$17, was the announcement this morning from the Business & Professional Women's Club committee in charge of the hut. Everyone is urged to patronize the hut, as it will close Saturday evening.

## CAVERT MEETS WITH FARMERS

Farm Expert of University Farm Visits Farm Bureau Units of County

### FARM MANAGEMENT TOPIC

Other Subjects for Discussion Include Pure-bred Dairy Sires Offer of Chamber of Commerce

William Caver, farm expert from the university farm, is meeting with farm bureau units in Crow Wing county, addressing the members on the important subject of farm management.

On Wednesday the Niswam community club met at noon at the Swanson store in that village.

Thursday noon the Twin Lakes farm bureau unit met at the home of O. M. Olson, beginning with a chicken dinner. Thursday evening the Baxter club meets at the schoolhouse four miles west of Brainerd, and on Friday evening the Oak Lawn unit meets in the Oak Lawn town hall.

Mr. Caver is scheduled to address all of these meetings, and much interest is manifested among the farmers in what he will have to say.

Other important subjects to come up for discussion at these meetings include the pure-bred dairy sires that the Brainerd Chamber of Commerce proposes to furnish farmers of the county; poultry raising and marketing of poultry products, and the growing of alfalfa in this county, a crop that is gaining in favor among the majority of local farmers, who have already ordered large quantities of seed for this spring's planting.

### Surprise Party

A surprise party was given in honor of Mr. and Mrs. Emil Hildebrandt, the occasion being their fifteenth wedding anniversary and also Mrs. Hildebrandt's birthday.

Twenty-five guests were present. The evening was spent informally in dancing, and cards. A delicious luncheon was served.

They will unite with the other Methodist societies of the country in a day of prayer for missions. A short program will be given in addition to the regular topics, and a good attendance of those interested is urged.

### AIRPLANE SAFER THAN TRAIN FOR TREASURE TRANSPORT

Paris, March 6.—The airplane is the safest transport. This is the opinion of many on both sides of the English Channel, and is backed up by insurance companies, whose rates by air are only half the railway and boat costs.

The most valuable airplane cargo ever carried across the channel, a hundred pounds of platinum, has been delivered safely in Paris, from Croydon. Shippers use the air route to transport precious metals and jewels, not only because it is cheaper, but because it minimizes the liability of robbery and accident that would cause its loss. There is very little danger of falling into the sea, because pilots are instructed to reach an altitude that will always enable them to volplane to one coast or the other.

Recently a pilot came into a rough field in France with engine trouble and crashed upon landing. He was forced to leave his wreck to find help. When he returned a group of peasants had gathered, and one asked him what was the big box he was carrying as cargo. He did not know, but when it was lifted out, a stream of gold fell into the grass. But not a piece was missing.

### Creditors to the Rescue

"I understand that some of your creditors are pressing you." "I arranged that," answered Senator Sorghum. "In this era of investigation I want it made perfectly clear that I haven't more than enough money for my current expenses."—Washington Star.

## 67 CHAUFFEURS TOOK EXAMINATION

Largest Number Ever so Examined in This Brainerd District

### MAJORITY FROM BRAINERD

J. R. Tebo, State Examiner, in Charge—Eye Sight Tests by Dr. C. G. Nordin

Sixty-seven applicants took the examination for chauffeurs license in the municipal court room on Sunday, the largest number that has ever been examined for such licenses in this district.

The majority of those taking the examination, were of course, from Brainerd, but Merrifield, Niswam, Pequot and Crosby were also represented. J. R. Tebo, state examiner, was in charge of the examination, which consumed most of the day. The eye sight tests were made under the direction of Dr. C. G. Nordin.

The reason given for the large number of applicants, is said to be the change in the state laws, requiring that anyone who drives an automobile, even though it be his own, for hire, either in transporting people or merchandise, must pass a chauffeur's examination, as well as those who drive for others.

This brings under the law, all draymen, and owners of taxi-cabs who drive their own vehicles, truck drivers, etc., as well as those who drive delivery trucks for wholesale or retail concerns.

Those who already held chauffeur's licenses, and who renewed them before January 1st, were not required to take the examination last Sunday.

### FIRST BALLOON

### TIRES IN CITY

Ed. Blank of Brainerd Buys Dodge Sport Model so Equipped from Rosko Brothers

### ATTRACTS ATTENTION

Can Run Over Curb or Other Obstructions Without Any Appreciable Jar to Driver

To Rosko Brothers, Dodge Brothers car dealers, goes the honor of being the first to introduce balloon tires in Brainerd. Ed. Blank bought a sport model Dodge so equipped and the car has aroused a world of attention. The driver, in practice spins, ran over a curb and other obstructions without any appreciable jar to the car occupants. It is claimed it makes touring a pleasure and comes very close in driving sensation to an airplane floating along.

Robert Erickson, son of the florist has bought a Dodge special touring car. A recent carload of Dodges received by Rosko Brothers is meeting with a ready sale.

### Presbyterian Society

The Women's Missionary society of the Presbyterian church will hold its annual prayer service at the home of Mrs. George Hess, at 619 Pine St., on Friday evening, 8 o'clock. A splendid program has been arranged, and all members and friends are urged to be present.

## TAG DAY FOR A NEW CAR

Nurse Supervising Committee Discusses Plans for Such a Day in Early Spring

### HEALTH FUND IS NEEDED

Washington-Lincoln Parent-Teachers Furnish Milk to Under Weight Children

The nurse supervising committee met at the nurses office, March 3rd, the members present being Mrs. W. H. Gemmell, chairman, Elmer Dahl and Harry Gaskill.

The committee discussed plans for a tag day to be held this spring to raise money for a new car. The present car has been in use for two and a half years. It is hoped to raise enough for a health fund to be used for children needing defects corrected but who are unable to afford such attention.

The nurse's monthly report was submitted and accepted, being as follows:

Attendance in the public schools is reported as being back again to normal. During the month 281 home visits were made, including 26 cases of nursing care, 147 instructive or demonstration visits, 38 business calls, 18 visits of investigation, and 52 communicable diseases which included 25 cases of measles, five cases of mumps, 15 cases of conjunctivitis, three cases of impetigo and four of whooping cough. Five children were taken to the doctor and four to the hospital. Literature on tonsils, teeth and nutrition was given out during the month.

Sixty-two school visits were made and 80 children given a class room inspection for pediculosis and 159 individual pupils were inspected. Sixty-four defects were found and 29 had defects corrected. Eighteen children were found to have poor vision, 21 defective tonsils or nose, four with enlarged glands, and 18 were ten percent underweight.

The Washington-Lincoln parent teachers association is sponsoring the furnishing of milk to the children seven percent or more underweight in the Lincoln school. There are 33 children underweight who are receiving milk and about the same number who are not underweight, but whose parents have asked that they have the milk. The charge is 15c a week.

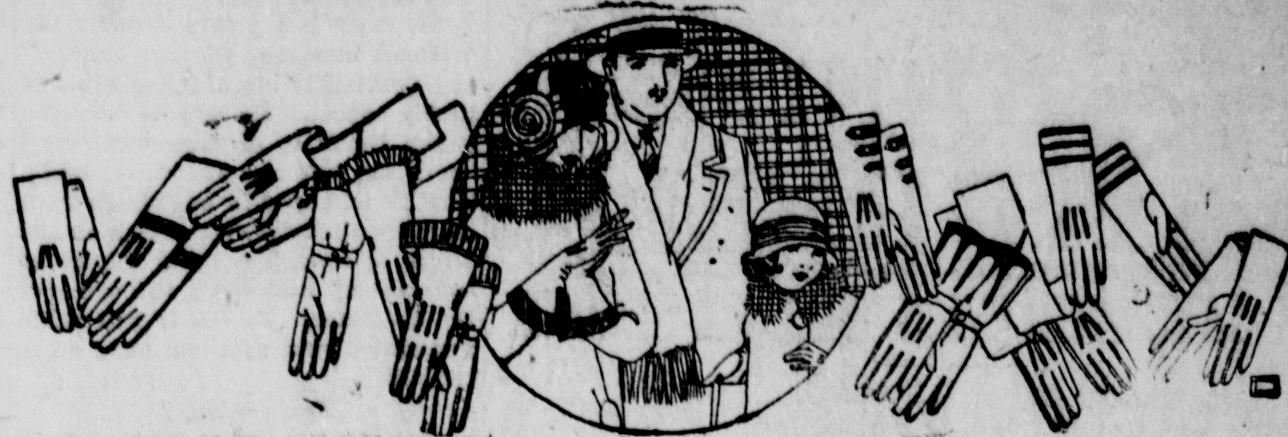

The dental clinics started again the first of March. E. W. Stimble, scout executive, very kindly printed on his mimeograph the notices which are to be sent to the parents, and the dentists will give of their time.

Two days were spent at Crosby assisting at the time of the mine disaster.

Four schools have started "Little Mother" classes. The material is furnished by the Division of Child Hygiene, state board of health. The teachers will give the instructions on home hygiene and the nurse will take the subject of infant hygiene.

The Lowell and Garfield parent teachers associations are signing up for the maternity and infant welfare classes. These classes are free and the material is sent from the state board of health and the university will give a certificate upon a satisfactory completion of this course. These classes are made possible by the passage of the Shepard-Towner bill.

In order to get a tax-exempt

## New Fancy Gloves Silk - Fabric - Kid

Fancy gloves have the preference these days. Fact is, most of them are fancy with beautiful gauntlets, many lined with high colored linings. We have just received our new Van Raalte silk gloves in the new spring styles and colorings. These are displayed in our windows.

## See Our Windows

You are missing a very pretty display if you miss seeing our daintily trimmed windows. They are lighted evenings.

## MACK SAYS ATHLETICS WILL BE SECOND

By HENRY L. FARRELL  
United Press Sports Editor

New York, March 6.—Connie Mack ventures forth with the prediction that the closest and most exciting race of years in the American League this year will finish with the New York Yankees in first place and his Philadelphia Athletics second.

Just a year ago Mack, less enthusiastic, confined his ballyhoo for the Athletics to the sober and conventions warning: "Look out for them!"

For half of the 1923 season the Athletics did enough to make everyone look out, and they began to cut such a figure that for the first time in nine years Philadelphia papers sent correspondents on the road with the team.

Mack says that the team he has organized for the 1924 pennant race represents just about what he had in mind in 1914, when he broke up one of the greatest of all baseball machines and announced that he would build a new one. He was patient for 10 years and the fans in Philadelphia were patient with him, because he was building, while the National League club was selling.

His generosity in conceding the 1924 pennant to the Yankees attaches more responsibility to his prediction that the Athletics will finish in second place than can be granted to the usual statement of a manager who might be talking to help the business office.

The Athletics have a young ball club that possibly does not look as good on paper as the Detroit Tigers or the Cleveland Indians, but it has been fairly established what the Tigers and Indians are capable of and there is no way to tell what the Athletics can do if they get off on the right foot and are able to keep their balance.

Mack's opinion that the American League race will be a real contest is not in line with the prevailing opinion that the Yankees ought to have another easy march to the championship.

The Yankees have the same strength that won three pennants in a row. Perhaps the team is slightly better than it was last year, because it is better equipped with reserve strength. It has hitting, pitching and fielding that is good if it is not exceptional.

Cleveland has been strengthened at first base and there are reasons to believe that the Indians may get some better pitching. Speaker has a number of very promising young pitchers that should be developed by Frank Roth. The hitting of the club is all that could be wanted.

Detroit, runnerup two years in the race, has not been strengthened, and as Cobb's team now stands it still has an infield weakness that probably will be the same handicap as it was last year.

The Athletics and the Boston Red Sox are the only teams that have been strengthened during the off-season. Boston hasn't been rebuilt into a pennant contender, but Lee Fohl will have a team that should win more games than it did last year.

JOHNNY HINES in Scene from "CONDUCTOR 1492"  
a WARNER BROS. Classic of the Screen

Will be shown at the New Park last time tonight, benefit of Girl Scouts

### Mae Marsh Returns in Griffith Picture

Mae Marsh "came back home" when she signed a contract to play a leading part in D. W. Griffith's next production "The White Rose," a United Artists release coming to the New Park on Saturday and Sunday.

### The Most Popular American Play

"Uncle Tom's Cabin" is the most popular American play ever written. It is the only one that can be depended on to attract full houses when others fail in drawing powers. For over sixty years it has been the most widely attended production in the theatrical world, having more companies presenting it and playing to a greater attendance than any other attraction playing in theatres or under canvas. There are at least one hundred wagon shows playing the smaller villages and presenting this play; there are a dozen or more organizations moving by rail or auto truck, playing the smaller cities and there are occasional revivals, in the larger cities by stock companies; in addition to the above the Stetson management, which is the pioneer in this particular line of amusement, has two companies on tour; one of these, the original Number One company, which has not been seen in this immediate vicinity for many years, is announced as the attraction at the New Park Theatre, for a matinee and evening performance, on

Tuesday, March 11th, the matinee commencing immediately after school dismisses.

### Double Feature Bill at Lyceum Friday and Saturday

The vivid, colorful, turbulent life of the Canadian Northwest forms the background for the stirring action of "Man From Hell's River," coming to the Lyceum Theatre for two days beginning Friday. It is the work of

JAMES OLIVER CURWOOD'S  
"MAN FROM HELL'S RIVER"

James Oliver Curwood who has written many successes for the screen. Irving Cummings, who directed the feature, also plays the leading role—

that of an officer in the Royal North-west Mounted Police.

The story is one that requires the best sort of acting to "put it over," and Cummings' naturalness gives it its big appeal. He returns from the frozen North to discover his sweetheart, the wife of a vicious renegade. How he triumphs in one of the most crashing climaxes ever shown on the screen is enough to send shivers of suspense up and down the spine of the spectator. To see it will make you clutch your seat and hang on to the finish.

### Feature No. 2

"The Man From Madrid, Michigan," the first of the new Leather Pushers series, is the added attraction at the Lyceum on Friday and Saturday. Billy Sullivan, nephew of the famous John L. Sullivan, is starred in this new series.

### New Mary Pickford in Her Latest Film

During the first day that Mary Pickford's new picture, "Rosita," her latest United Artists' Corporation release, coming Sunday to the Lyceum Theatre, was in the making, this much-idolized little cinema artiste spent the time in jail.

But it was all in the script, the first scene of which required that "Our Mary" be imprisoned in a dingy, dungeon cell. Ernst Lubitsch, the director, turned the key and kept her there from nine-thirty in the morning until six-thirty that evening, with a brief half hour out for lunch.

Those who see this feature when it comes to the Lyceum Theatre, may be surprised, however, to find that the first scene of the picture does not show the star behind the bars. Even though this was the initial "shot" to be taken it did not come into the

story until well along toward the middle of the film. It happened to be more convenient to make the prison scene first, and at a motion picture studio scenes are shot in their order of convenience rather than in numerical order.

### "Look Your Best" Tells a Human Interest Story of an Italian-American Dancer

Rupert Hughes, Goldwyn author-director, in his new photoplay, "Look Your Best," which is now showing at the Lyceum Theatre, has reverted from middle western towns to New York City, mainly, for the locale of his new picture. It is not a story of the Irish either, as was his "Hold Your Horses," "From the Ground Up" and "Come On Over." The principal characters are all Italian-Americans. The story is a comedy-drama of small time vaudeville life. It begins in New York, shifts to the small towns covered by the vaudeville tour and comes back to the Metropolitan Opera House in New York.

Goldwyn gave the director an excellent cast with Colleen Moore and Antonio Moreno in the leading roles of Perla and Bruni. The picture holds a universal appeal—an appeal to which women particularly will respond.

### \$1,250,000 COST OF CURLING LAST YEAR

(By United Press)  
Philadelphia, March 6.—Femininity's fashion, curly locks and the permanent wave, which is only permanent in a manner of speaking, cost millady \$1,250,000 for electric curling irons last year, according to the Pennsylvania Public Service Information Committee. While American women spent that huge sum

for the little devices that bring beauty to the bobbed coiffure, it is estimated that the electric current used for "curling" cost quite a large sum, too.

What do you get when you use this different wallboard? Standard plaster walls and ceilings—solid, fireproof, insulating against summer's heat and winter's cold. But you get these results for less money because Sheetrock is so low in first cost and easy to erect.

## SHEET ROCK

the fireproof WALLBOARD

Ask Brainerd lumber dealers for a sample.

# Don't Pay \$1,000 or More

for a car, without knowing what the leader offers in the fine-car field

**WE** made a canvass of many who bought rivals of Studebakers. We said, "Tell us why you liked your car the better."

The majority said, "We did not even look at the Studebaker." Most of them bought new models of the car they owned before.

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world.

Studebaker is the sensation of modern Motordom. Its amazing growth signifies a new situation in this field.

Last year, 145,167 fine-car buyers paid \$201,000,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons for this trend?

### Facts to consider

Studebaker assets are \$90,000,000—all staked on satisfying, better than others, buyers of high-grade cars.

Over 23,000 men have their future at stake on giving you maximum values.

\$50,000,000 in modern plants and equipment, of which \$32,000,000 has been added during the past five years.

\$10,000,000 in body plants to give you superlative beauty. To give that final touch for which Studebakers have been famous for decades.

125 experts who devote their whole time to studying betterments. Who make 500,000 tests per year to maintain our supremacy.

Consider Studebaker history. For 72 years this concern has stood for high principles and policies.

For two generations, against all the world, it held first place in horse-drawn vehicles.

Now for years its name and fame have been committed to like attainments in fine motor cars.

### If you only knew

There is no room here for details and comparisons. You will find them all in Studebaker showrooms. But let us cite some significant facts.

That lack of vibration, so conspicuous in Studebakers, costs us \$600,000 yearly in extra machining of crank shafts.

That matchless strength in vital

worked out to exactness for supreme service in its place.

We employ 1,200 inspectors to make 30,000 inspections of the material and workmanship in each Studebaker car—before it leaves the factory.

Consider how Studebaker has always led in the building of high-grade cars. We were first to use cord tires as standard equipment. We were the first quantity manufacturers to build bodies of the highest grade.

If you want beauty, fine upholstery, rich finish and equipment, consider that Studebaker has had more experience in fine coach building than any other motor car maker.

### Our place no accident

The pedestal place which Studebaker holds in the fine-car field is not the result of accident. It comes from principles as old as this business—the ceaseless and determined ambition to excel.

Learn the result of these efforts. Compare detail by detail, part by part, with any car you wish. When you foot the advantages, you will find that they number scores.

### These are facts you should know.

They are inducing 150,000 per year to choose Studebaker cars.

Some sell at \$1,045. Some meet with every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

### People have learned these facts—

hundreds of thousands of them. The demand for Studebakers has almost trebled in three years. It has become overwhelming, even for our facilities.

Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

## See the Studebakers

Studebaker builds more fine cars than any other plant in the world.

Last year 145,167 wise motor car buyers paid \$201,000,000 for Studebakers.

The demand has almost trebled in the past three years. Studebaker now holds a leading place in the high-grade field.

Our modern plants and their equipment cost \$50,000,000. All to give you the maximum value at the minimum of cost.

It is folly to buy a car in this class without knowing what we give.

parts comes from the costliest steels. For some we add 15% to the quoted price to get exactness in them.

That Chase Mohair, used in our closed cars, is made from the soft fleece of Angora goats. Cotton or ordinary wool, or a combination of both, could reduce our price \$100 to \$150 per car, but it would sacrifice Studebaker quality.

Note the bumpers, the steel trunk, the extra cord tires, the motorometer, the courtesy light on some models. Figure what they would cost as extras.

### The infinite care

We use 35 formulas for steel, each

There are at least one hundred wagon shows playing the smaller villages and presenting this play; there are a dozen or more organizations moving by rail or auto truck, playing the smaller cities and there are occasional revivals, in the larger cities by stock companies; in addition to the above the Stetson management, which is the pioneer in this particular line of amusement, has two companies on tour; one of these, the original Number One company, which has not been seen in this immediate vicinity for many years, is announced as the attraction at the New Park Theatre, for a matinee and evening performance, on

Tuesday, March 11th, the matinee commencing immediately after school dismisses.

### Double Feature Bill at Lyceum Friday and Saturday

The vivid, colorful, turbulent life of the Canadian Northwest forms the background for the stirring action of "Man From Hell's River," coming to the Lyceum Theatre for two days beginning Friday. It is the work of

JAMES OLIVER CURWOOD'S  
"MAN FROM HELL'S RIVER"

James Oliver Curwood who has written many successes for the screen. Irving Cummings, who directed the feature, also plays the leading role—

that of an officer in the Royal North-west Mounted Police.

The story is one that requires the best sort of acting to "put it over," and Cummings' naturalness gives it its big appeal. He returns from the frozen North to discover his sweetheart, the wife of a vicious renegade. How he triumphs in one of the most crashing climaxes ever shown on the screen is enough to send shivers of suspense up and down the spine of the spectator. To see it will make you clutch your seat and hang on to the finish.

### Feature No. 2

"The Man From Madrid, Michigan," the first of the new Leather Pushers series, is the added attraction at the Lyceum on Friday and Saturday. Billy Sullivan, nephew of the famous John L. Sullivan, is starred in this new series.

### New Mary Pickford in Her Latest Film

During the first day that Mary Pickford's new picture, "Rosita," her latest United Artists Corporation release, coming Sunday to the Lyceum Theatre, was in the making, this much-idolized little cinema artiste spent the time in jail.

But it was all in the script, the first scene of which required that "Our Mary" be imprisoned in a dingy, dungeon cell. Ernst Lubitsch, the director, turned the key and kept her there from nine-thirty in the morning until six-thirty that evening, with a brief half hour out for lunch.

Those who see this feature when it comes to the Lyceum Theatre, may be surprised, however, to find that the first scene of the picture does not show the star behind the bars. Even though this was the initial "shot" to be taken it did not come into the

story until well along toward the middle of the film. It happened to be more convenient to make the prison scene first, and at a motion picture studio scenes are shot in their order of convenience rather than in numerical order.

### "Look Your Best" Tells a Human Interest Story of an Italian-American Dancer

Rupert Hughes, Goldwyn author-director, in his new photoplay, "Look Your Best," which is now showing at the Lyceum Theatre, has reverted from middle western towns to New York City, mainly, for the locale of his new picture. It is not a story of the Irish either, as was his "Hold Your Horses," "From the Ground Up" and "Come On Over." The principal characters are all Italian-Americans. The story is a comedy-drama of small time vaudeville life. It begins in New York, shifts to the small towns covered by the vaudeville tour and comes back to the Metropolitan Opera House in New York.

Goldwyn gave the director an excellent cast with Colleen Moore and Antonio Moreno in the leading roles of Perla and Brunel. The picture holds a universal appeal—an appeal to which women particularly will respond.

### \$1,250,000 COST OF CURLING LAST YEAR

(By United Press)—Femininity's fashion, curly locks and the permanent wave, which is only permanent in a manner of speaking, cost milled \$1,250,000 for electric curling irons last year, according to the Pennsylvania Public Service Information Committee. While American women spent that huge sum

for the little devices that bring beauty to the bobbed coiffure, it is estimated that the electric current used for "curling" cost quite a large sum, too.

What do you get when you use this different wallboard? Standard plaster walls and ceilings—solid, fireproof, insulating against summer's heat and winter's cold. But you get these results for less money because Sheetrock is so low in first cost and easy to erect.

## SHEET ROCK

# Don't Pay \$1,000 or More for a car, without knowing what the leader offers in the fine-car field

**WE** made a canvass of many who bought rivals of Studebakers. We said, "Tell us why you liked your car the better." The majority said, "We did not even look at the Studebaker." Most of them bought new models of the car they owned before.

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world.

Studebaker is the sensation of modern Motordom. Its amazing growth signifies a new situation in this field.

Last year, 145,167 fine-car buyers paid \$201,000,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons for this trend?

### Facts to consider

Studebaker assets are \$90,000,000 — all staked on satisfying, better than others, buyers of high-grade cars.

Over 23,000 men have their future at stake on giving you maximum values.

\$50,000,000 in modern plants and equipment, of which \$32,000,000 has been added during the past five years.

\$10,000,000 in body plants to give you superlative beauty. To give that final touch for which Studebakers have been famous for decades.

125 experts who devote their whole time to studying betterments. Who make 500,000 tests per year to maintain our supremacy.

Consider Studebaker history. For 72 years this concern has stood for high principles and policies.

For two generations, against all the world, it held first place in horse-drawn vehicles.

Now for years its name and fame have been committed to like attainments in fine motor cars.

### If you only knew

There is no room here for details and comparisons. You will find them all in Studebaker showrooms. But let us cite some significant facts.

That lack of vibration, so conspicuous in Studebakers, costs us \$600,000 yearly in extra machining of crank shafts.

That matchless strength in vital

worked out to exactness for supreme service in its place.

We employ 1,200 inspectors to make 30,000 inspections of the material and workmanship in each Studebaker car — before it leaves the factory.

Consider how Studebaker has always led in the building of high-grade cars. We were first to use cord tires as standard equipment. We were the first quantity manufacturers to build bodies of the highest grade.

If you want beauty, fine upholstery, rich finish and equipment, consider that Studebaker has had more experience in fine coach building than any other motor car maker.

### Our place no accident

The pedestal place which Studebaker holds in the fine-car field is not the result of accident. It comes from principles as old as this business—the ceaseless and determined ambition to excel.

Learn the result of these efforts. Compare detail by detail, part by part, with any car you wish. When you foot the advantages, you will find that they number scores.

### These are facts you should know. They are inducing 150,000 per

year to choose Studebaker cars. Some sell at \$1,045. Some meet with every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

People have learned these facts—hundreds of thousands of them. The demand for Studebakers has almost trebled in three years. It has become overwhelming, even for our facilities. Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

## See the Studebakers

Studebaker builds more fine cars than any other plant in the world.

Last year 145,167 wise motor car buyers paid \$201,000,000 for Studebakers.

The demand has almost trebled in the past three years. Studebaker now holds a leading place in the high-grade field.

Our modern plants and their equipment cost \$50,000,000. All to give you the maximum value at the minimum of cost.

It is folly to buy a car in this class without knowing what we give.
